

Harwich Connexions Noah's Nursery

Our Mission Statement

Here at Harwich Connexions Noah's Nursery we strive on providing high quality, affordable, childcare. Whilst providing this we want to ensure that we can provide a safe, caring, secure, stimulating, happy and thriving environment for your children to grow and nurture in. We also want them to feel valued and happy whilst promoting their mental, physical and emotional wellbeing. All this will help prepare them for their future education.

We are an inclusive nursery where each child is given equal opportunity to discover and develop through high quality, play based learning.

'Our curriculum allows opportunities to cover all the prime areas but with a focus on speech and language to underpin all of the other areas of development. To help build relationships and understanding of feelings as well as health and physical well being'.

Our Aims:

- To create a warm, caring and secure environment where children's individual needs are supported allowing them to grow into independent, confident characters who are respected and valued.
- To encourage children to care for, enjoy and show interest in the world around them.
- To work in partnership with parents; enabling children to reach their full potential, beginning their school/next journey in a positive and happy way.
- To make our nursery a happy place for all who are part of it and maintain an environment of exploration and self-evaluation, fostering both motivation and a love of learning.
- To provide well planned activities and opportunities, allowing children to progress successfully through the Early Years Foundation Stage.
- To support diversity and welcome all children recognising that each child's learning journey is unique and individual.
