

## ICON complete album lyrics

### *Let Me Go*

Stone cold sober  
So glad it's over  
End of story  
Road clear before me

There's no deceit again  
I'm on my feet again  
Repeat again  
The song I sing's a simple one  
Leave me alone

Let me go  
Please don't break my heart again, oh no  
Let me go  
Please let me go

Tossed, torn and tumbled  
This dream has crumbled  
Beg, steal or borrow  
I'll take tomorrow

I'm on my own again  
I won't be thrown again  
Disowned again  
The hurricane left me alive  
Sure I'll survive

Let me go  
Please don't break my heart again, oh no  
Let me go  
Please let me go

### *God Walks With Us*

God walks with us

Guides us through the empty spaces

When we go blind, we walk behind, He watches over us

God walks with us

Leads us from the evil places

No we don't mind, don't look behind, He doesn't mind at all...

God walks with us

God walks with us

Leads us from the evil places

No we don't mind, don't look behind, He doesn't mind

Walk with me please

Let me see where your heart's coming from

So let me see

Is this for real

Or let it be?

Just think about what He would say

About this world today

Just think what He would say

About this world today

God walks with us

God walks with us

God walks with us

God walks with us

Guides us from the evil places

When we go blind, we walk behind,

He watches over us

### ***I Stand Alone***

This is our destiny

There's no eternity

I need security

You turn your back on me

I gave my life to you

So what a thing to do

Just how can you pursue

A life with yourself

And when you see the end

On what can you depend?

There's nothing left that you

You can lean on

When you did that to me

It felt like purgatory

Oh! What a place to be

Devil or deep blue...

You, you had the time of your life

Me, I stand alone

You, you had the time of your life

Me, I stand alone

What was your fantasy?

It's just too plain to see

That same old imagery

Is fading away

There's nothing more to do

Whatever happened to?

All the things we planned

When we walked hand in hand?

And when you see the end

On what can you depend?

There's nothing left that you

You can lean on

When you did that to me

It felt like purgatory

Oh! What a place to be

Devil or deep blue...

You, you had the time of your life

Me, I stand alone

**You, you had the time of your life**

**Me, I stand alone**

**This is our destiny**

**There's no eternity**

**I need security**

**You turn your back on me**

**I gave my life to you**

**So what a thing to do**

**Just how can you pursue**

**A life with yourself**

**And when you see the end**

**On what can you depend?**

**There's nothing left that you**

**You can lean on**

**When you did that to me**

**It felt like purgatory**

**Oh! What a place to be**

**Devil or deep blue...**

**You, you had the time of your life**

**Me, I stand alone**

**You, you had the time of your life**

**Me, I stand alone**

## ***Meet Me at Midnight***

**Oh my love**

**Meet me at midnight**

**I'll be waiting here in the moonlight**

**Please my dove**

**Now in the starlight**

**Bright is the moment you come to me**

**Because what can I do?**

**The only one is you**

**All the other girls**

**Don't have a clue**

**So what can I do?**

**The only one is you**

**Meet me here at midnight**

**My love**

**Melting away**

**Like another day**

**You hold my heart in your hand**

**Because what can I do?**

**The only one is you**

**All the other girls**

**Don't have a clue**

**So what can I do?**

**The only one is you**

**Meet me here at midnight**

**My love**

### ***Hey Josephine***

**Hey there, beautiful**

**Picture in a magazine**

**It's you, Josephine**

**I wondered where you'd been**

**And I think about those diamonds in your eyes**

**Do they shine for real, or are they lies?**

**One look, angel face**

**One time, another place**

**What time cannot erase**

**You're gone without a trace**

**And I think about those diamonds in your eyes**

Do they shine for real, or are they lies?

Hey Josephine

What did you mean

When you said you'd come with me?

Hey Josephine

What did you mean

When you said you'd come with me?

Hey Josephine

What did you mean

When you said you'd come with me?

Hey Josephine

What did you mean

When you said you'd die for me?

Hey there, Josephine

With those eyes of blue

I never thought in my life

I'd be sharing you

Still I think about those diamonds in your eyes

Do they shine for real, or are they lies?

Hey Josephine

What did you mean

When you said you'd come with me?

Hey Josephine

What did you mean

When you said you'd come with me?

Hey Josephine

What did you mean

When you said you'd come with me?

Hey Josephine

What did you mean

When you said you'd die for me?

### ***Far Away***

Don't cry for me

My love for you is clear to see

Not all the while

But yes I do remember smiles

There were times of pain

And they will come again

Far away, far far away

So far away

Far enough to breathe

When the air is clear

Here where I hide away

For one more day

So far away

And when I'm gone

You know your life has just begun

This much is true

You know that I'll be there with you

There will be times of joy

For such a golden boy

Far away, far far away

So far away

Far enough to breathe

When the air is clear

Here where I hide away

For one more day

So far away

### ***Please Change Your Mind***

Right now

I'm sitting here

Blinded by this situation

Trying to find a way

**Cut down**

**I'm moving out**

**As you plan your celebration**

**I live it day by day**

**The clouds are rolling in**

**The mountains towering over me**

**I've got to get away**

**Got to find myself another day**

**Before it gets too late**

**Before it gets too late**

**Please change your mind**

**And think of what you say**

**Please change your mind**

**Give me one more day**

**Please change your mind**

**Or just walk away**

**This town**

**Is killing me**

**Drains the very life from me**

**Just want to sail away**

**Long nights**

They ran their course

Never to return again

Or so, they say

But words don't mean that much to me

Nor memories of what used to be

I've got to draw the line

Got to move on to some other time

Not even if you cried

Not even if you cried

Please change your mind

And think of what you say

Please change your mind

Give me one more day

Please change your mind

Or just walk away

### *Sleep Angel*

Sleep, just close your eyes

And visualize

A new morning before us

Keep, this dream alive

**And realize**

**The day dawning before us**

**Sleep angel**

**Close to me**

**Keep this angel**

**Close to me**

**Oh, angel devine**

**Angel of mine**

**My love, my one and only**

**Sleep angel**

**Close to me**

**Keep this angel**

**Close to me**

**And the time will come**

**When nothing can hurt us**

**We will win**

**Till faith will desert us**

**Sleep angel**

**Close to me**

**Keep this angel**

**Close to me**

**Sleep, just close your eyes**

**And visualize**

**A new morning before us**

**Sleep angel**

**Close to me**

**Keep this angel**

**Close to me**

**And the time will come**

**When nothing can hurt us**

**We will win**

**Till faith will desert us**

**Sleep angel**

**Close to me**

**Keep this angel**

**Close to me**

### ***Spread Your Wings***

**No need to hang your head**

**For all the things you said**

**This place will never be your home, again**

**So leave now, take your pride**

**Your thoughts will stay inside**

**And live to fight another day**

**Spread your wings**

**And fly into the sky**

**Spread your wings**

**And fly into the sky**

**When you threw me away**

**It was like a ricochet**

**But I was never aiming at your heart**

**And in the afterlife**

**You'll find a better life**

**No more dancing in the fire**

**You'll find a better day**

**Than you had yesterday**

**Spread your wings and fly away**

**Cuts deeper than a knife**

**Leaving me, you're still alive**

**Spread your wings and fly away**

## ***In the End***

**Start on your journey now**

**While the world is beckoning**

**And strangers call your name**

**Take what your dreams allow**

**Every day's awakening**

**Is kindling to the flame**

**All our memories may serve**

**You as friends**

**Time is no enemy**

**'Cause I will be waiting**

**And in the end**

**You will find me here again**

**If I'm the one you're needing**

**Just send a sign**

**If you're alone**

**In my heart you'll find a home**

**Where all your roads are leading**

**Where you belong**

**In the end**

**Rest, when the tale is told**

**And beyond imagining**

We'll share the life within

Sleep when the fires are cold

And the night is gathering

That prize you could not win

All our memories return in a song

Time's no enemy as long as

You hear me

And in the end...
