

ROCK OF FAITH complete album lyrics

Rock of Faith

Sanctuary

When all hope deserted me

This will forever, always be

Something so close to me

My Rock of Faith

Pulling me

Like the heat of the sun

Calling to Mercury

Now till eternity

Before my eye

I'll never stand alone, for I

Have the foundation stone I knew

So as my spirits rise anew

Then with all speed

To the path

That will lead

Surely back to You.....

Strangely now

How the air's getting cold

Shadows appear on the wall

The feeling of old

Lifting me up again

My Rock of Faith

And if I start to fall

I fear nothing at all...

A New Day

Outside the sun is sinking west

Something tells me I'm at the wrong address

I turn my collar to the dazzling rain

Walk through city streets, try to drown this pain

There'll be a new day, be a new day

But there's no time for us, to take it easy, oh no

How many times have I been on my knees?

Screaming 'Someone, anyone, help me please!'

It's a new day, it's a new day

And there's no time for us, to make it easy, oh no

Wrong side of midnight, I've been to hell and back

Shines a point of gold, through the veil of black

'Cause it's a new day, it's a new day

And this is our time on earth, to take it easy, oh yeah

I've Come to Take You Home

I can't believe it came to this

Your expression says it all

The light that frames your face is warm again

And that belies the icy coldness in your soul

I stand and gaze across the lake

Your breath is hanging in the air

The misty window pane obscures the view

Whatever happened to the blazing fire inside?

Fearlessly,

Be honest and stand up now for the man you love

Free yourself, follow every dream

Use all your courage, step into the light

Release yourself, be brave

Then just walk out of the door, nothing more...

I've come to take you home

I'm trying hard to take this well

And as the daylight slips away

You must know, we don't deserve this now,

This kind of living hell

That we went through

No more living in the past

Now we have to let that go

We have to take the chance to live again

To find our way again, the path we both should know

Fearlessly,

Be honest and stand up now for the man you love

Free yourself, follow every dream

Use all your courage, step into the light

Release yourself, be brave

Then just walk out of the door, nothing more...

I've come to take you home

Who Will Light a Candle?

Stone walls guarding

These generations

Bound in circumstance

Blood relations

Who will light a candle?

Memories are fading

Messengers are waiting

At my door

Curtains hiding

Love's sweet confusions

All God's property

Fears of intrusion

Who will light a candle?

Maybe I was sleeping

Messengers are waiting

At my door

For me now there's no love left inside of me

All creation washed out to sea

All my nightmares come to me

Over and over and over again

Pride and passion

Both shall inflame us

Till oblivion

Comes hence to claim us

Who will light a candle?

Who can tell the story?

Messengers are waiting

At my door

Nothing's Gonna Stand in Our Way

We're headline news

On the hour, it's on every radio

We got to lie low

Can't leave any clues

They're mad as hell

Try to find us but I swear they never will

We got luck on our side

And I know we can't lose

But I'm ready for

What they've got in store

They can try, but

Ain't nothing gonna stand in our way

Nobody's gonna stop us

So walk tall, you don't have to be afraid

As long as I am with you,

Nothing's gonna stand in our way

Don't look back

It's another life, don't think about the past

Just look to the future

We'll be alright

Nothing they thought of

Is stronger than our love

Let them try, 'cause

Ain't nothing gonna stand in our way

Nobody's gonna stop us

So walk tall, you don't have to be afraid

As long as I am with you,

Nothing's gonna stand in our way

I Believe in You

There comes a time

When all you have

Can be taken from you,

And all your faith can dissolve

Into space in no time, but

I believe in you

When I look back at all the
Mountains we had to climb and
Rivers to cross which were
Just way too wide to view,
I believe in you

And now we still have the
best of our lives.....

As years unfold, then I know
There will be no other love
In my life, I commit and you know it's true
I believe in you

Take Me to the Waterline

I can see it in your eyes
Now I feel no uncertainty
Let me breathe in all your light
And stay with me, set a blaze tonight

We got nothing left to lose
Shoot the breeze and lose your shoes
Then dare to look me in the eye
Face to face, tell me there's no lie

So have I found heaven on earth

This poor soul in torment but

Give me a moment that's frozen alone for all time

Won't you...

Take me down to the waterline

I've got so much love and so little time, won't you

Take me down to the waterline

Won't you take me down

I've been holding on so long

For the simple sight of the only one

No conscience and not one regret

That every step led me to this place

Right here and right now

It's a long, long way home anyhow

And every star up in the sky

Says a feeling that strong

Belongs to you and I

So have I found heaven on earth

This poor soul in torment but

Give me a moment that's frozen alone for all time

Won't you...

Lift me up to the waterline

I've got so much love and so little time, won't you

Come on lift me up at the waterline

When you take me down

I Lay Down

Save me, catch me when I fall

Let me trust in what I cannot see

Bathe me, so I feel I have it all

Then leave me here just with this memory

I lay down, and then I close my eyes

Call your name, and whisper 'let it be'

I lay down, and when I close my eyes

Then I feel you lying next to me

Hold me, at the gates of ecstasy

In the darkest recess you can find

Please no deceit, always constancy

Your ever-changing face within my mind

I lay down, and then I close my eyes

Call your name, and whisper 'let it be'

I lay down, and when I close my eyes

Then I feel you lying next to me

When You Were Young

When you were young did you dream?

In the shadows of your fear

Take my hand, and

They'll all disappear from view

I Believe in You

On angels' wings you can fly

To the heavens in the sky

Close your eyes

And you'll know that my words are true

I Believe in You

And when the world is not right

When it seems your day is night

Come to me

Here's a dream just to hold on to

I Believe in You

Cold Comfort (Bonus Track)

Too late to talk about

How we could work it out

I truly hope you're happy now

So you made your choice

It seems like I lost my voice

And I can't hear the words you say to me

Don't need your so-called warmth of friendship

I miss the soft heat of your mouth

It's hard to reconcile the pain that burns inside

Ain't it funny how?

Yes, it's all cold comfort to me.....now

So you come to me

I can't accept sympathy

You were the sun that lit my day

I know this is the end

From lovers we can't be friends

Let's just go our separate ways

I know I should have seen this coming

But I was lost in hopes and schemes

And your reality is so far from my dreams

Ain't it funny how?

It's all just cold comfort to me now

Ain't it funny how?

It's just all cold comfort to me now

Yes, it's all cold comfort to me now

God Only Knows (Bonus Track/Recorded Live in Mexico City)

I may not always love you

As long as there are stars above you

You'll never need to doubt it

I'll make you so sure about it

God only knows what I'd be without you

If you should ever leave me

Life would still go on believe me

The world would show nothing to me

So what good would living do me?

God only knows what I'd be without you

I may not always love you

As long as there are stars above you

You'll never need to doubt it

I'll make you so sure about it

God only knows what I'd be without you
