

# Chisun Projects

*Quality Solution for  
Every Challenge*

# Who Are We?

## Chisun Projects :

- Integrated marine and offshore group
- Offering technical, engineering and consultancy solutions
- Clients in the marine, shipping and energy sectors
- Diverse team experience
- Customised approach to create well-designed solutions

# Quick Info

- Established in 2019
- Based in Singapore and Indonesia
- Network of partners – China, Malaysia, India, etc

## Key offerings :

- Project Management and Turnkey Solutions
- Steel structural & piping fabrications work
- Mechanical and Hydraulic installation and repair
- Inspection Services
- Procurement Solutions

# Project Management & Turnkey Solutions

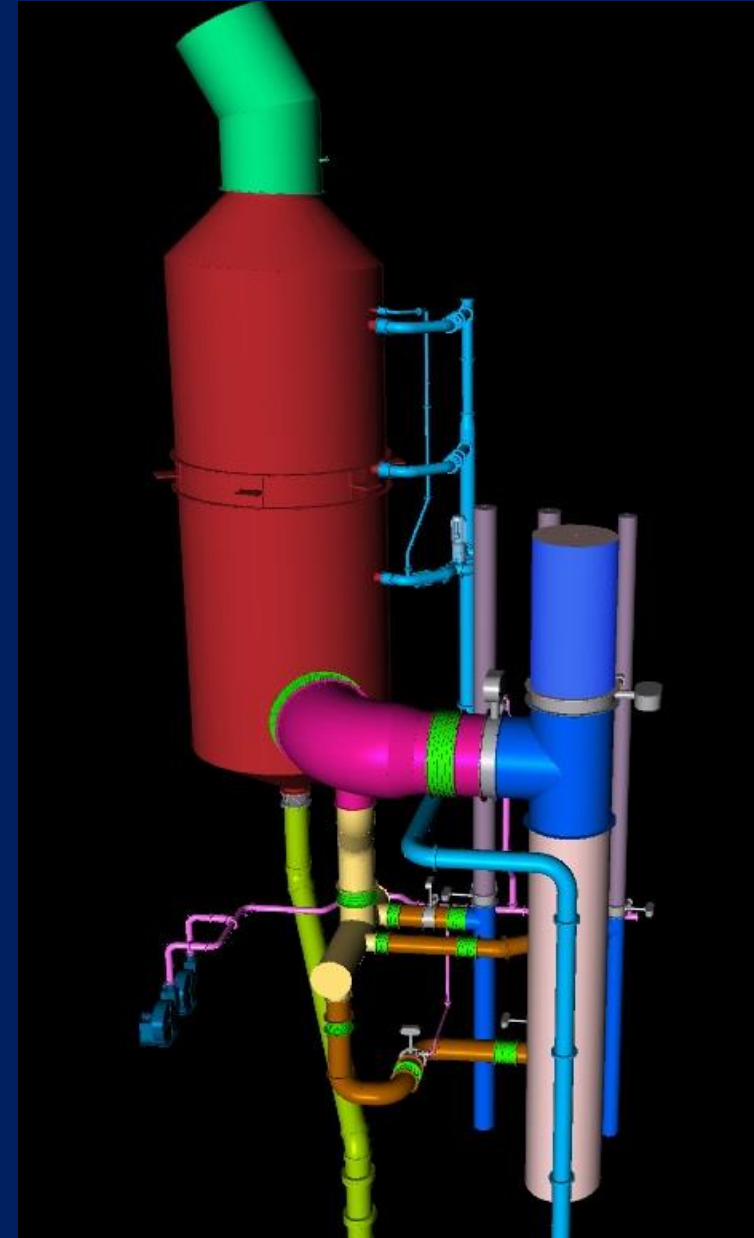

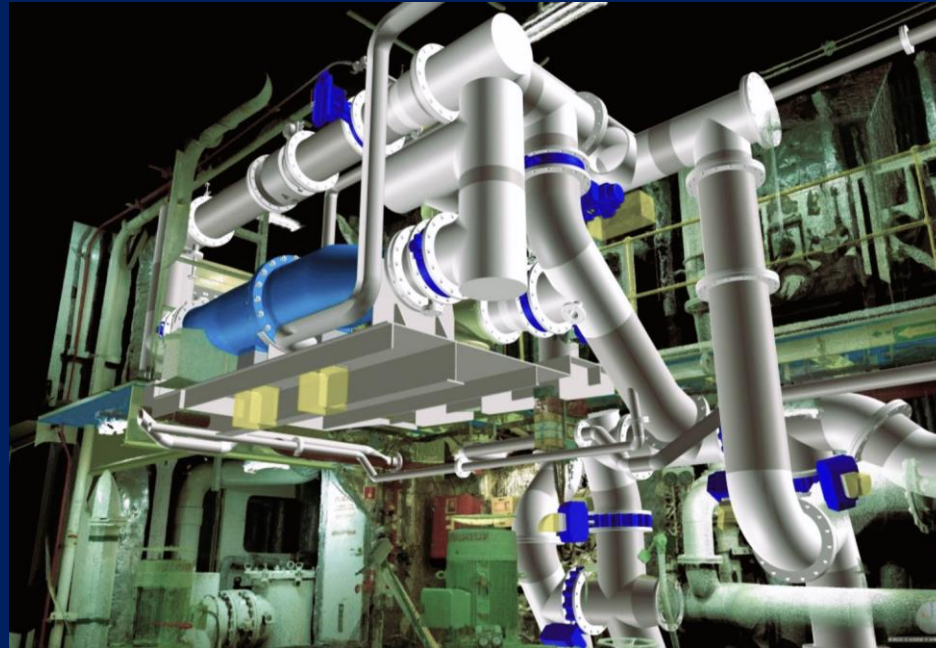

- Marine construction, maintenance and repairs
- Hull blocks building
- Shipbuilding project management
- Module fabrication
- Turnkey solution and execution

# Engineering

- 3D Laser Scanning – Point clouds
- Systems design and integration
- Scrubber and BWTS feasibility studies, detail engineering, etc

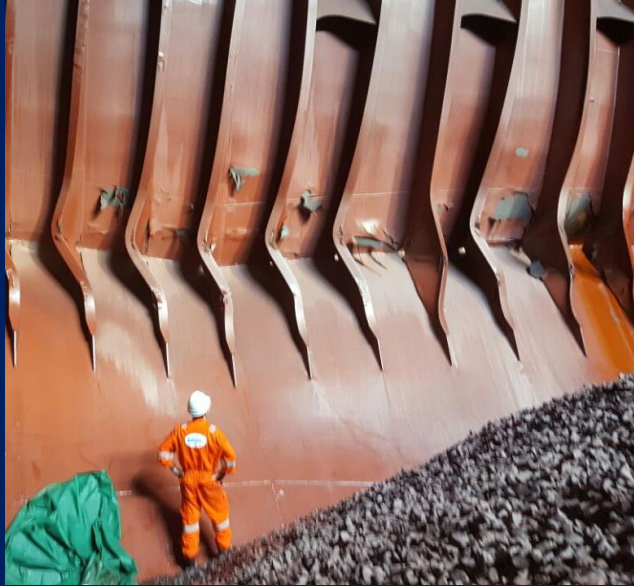

# Fabrication Works

- Steel structures constructions
- Piping system fabrication and installation
- Equipment skid design, fabrication and assembly

# Inspection Services

- H&M Survey
- Condition and Damage survey
- Subsea visual inspection (ROV)
- Tank Inspection and repair recommendation
- Rope Access
- Unmanned Aerial Vehicle (UAV) inspection

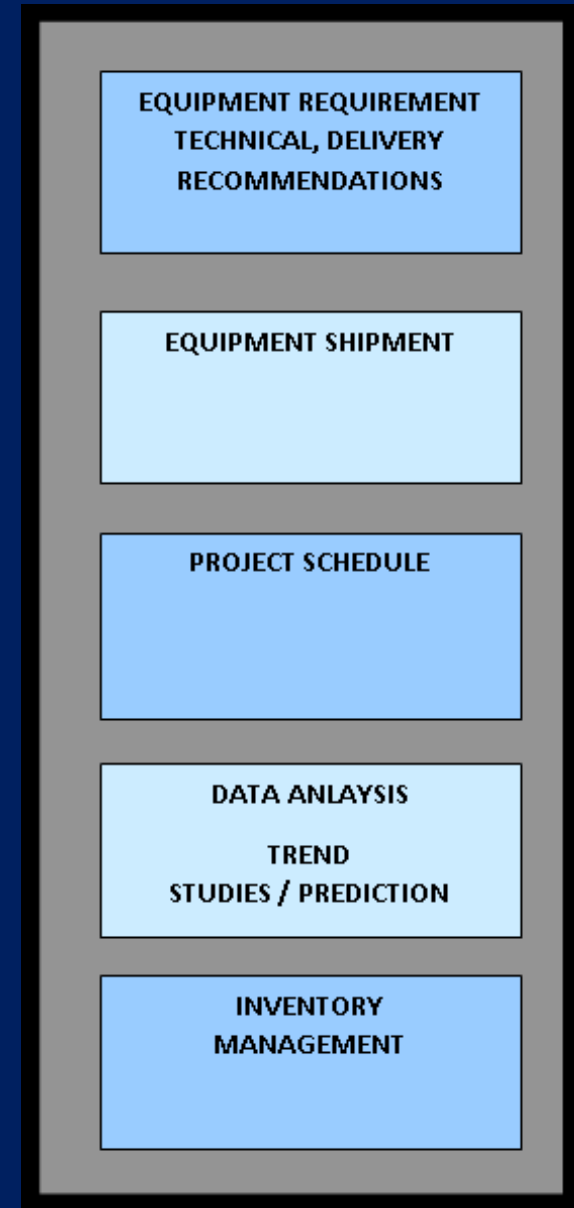

# Subsea Services

- Inspection – Photo & Video
- Maintenance – Hull Cleaning, Propeller Polishing, Sea-chest grating cleaning, entanglement, etc
- Repair – Plugging/Blanking of hull openings, internal repairs.
- Cofferdam solutions

# Procurement Solutions

- Support client's project procurement requirements
- Review specifications and requirement
- Initial fair tender process
- Evaluate manufacturers and vendor proposals – Make overall recommendations
- Plan and sequence delivery to optimise cost, minimise storage, extend shelf-life and manage warranty
- Data and trend analysis – Forecast requirements, reduce stocking cost
