Commitment to Quality... A Family Tradition

The Spielman line of cedar lawn and garden furniture began in 1967 when Patrick Spielman designed his first park bench. His son, Bob, joined forces with him in 1975, and together they developed the timeless brand that exists today. Now, in honor of his late father, Bob carries on a family tradition committed to quality.

All furniture at Spielman's Woodworks is made from hand selected, specially sawn, native white cedar. This remarkable wood is lightweight, extremely strong, decay resistant, and weathers to a soft, silvery gray. Each plank is air-dried, precisely machined and then hand crafted into a beautiful piece of work with long lasting durability.
