

The Mitchell Group

Founded in 1975, Mitchell Construction Company, Inc. was formed to provide Building Construction Services primarily to the Federal Government. As time passed, our Company has grown into one of the leading Contracting firms in the United States.

Although jobsite offices vary from one construction location to another, Mitchell's Corporate offices are in Vidalia, Georgia. Our construction operations are headquartered in Brunswick, Georgia. We have regional offices in the following cities: Washington, D.C.; New York, New York; Jacksonville, Florida; New Orleans, Louisiana; and Austin, Texas.

At Mitchell, our principal service is that of fulfilling construction needs of various customers. We currently offer expertise in the Building, Civil and Marine Construction Arenas. The services offered by Mitchell are unique to our company. We are one of only a handful of organizations that perform work in Building, Civil and Marine Construction. Below is a listing of services currently available from Mitchell Construction Company, Inc.

- New Building Construction
- Renovation of Buildings
- Construction Management
- Design / Build Projects
- Job Order Contracting
- Bridge Construction
- Program Management
- Marine Construction

Mitchell has come a long way from its beginnings. Since 1975 we have experienced tremendous growth. In 1998 Mitchell expanded into marine construction by the purchase of Wood-Hopkins Contracting Co., Jacksonville, Florida. This company founded in 1906, is one of the leading Marine Contracting firms in the Southeast United States.

We believe our Company is in youthful maturity, with many productive years remaining. We think the following photos speak for the quality and expertise our firm affords its clients. THESE ARE EXCITING TIMES!

OFFICE BUILDINGS

SUMMIT PROFESSIONAL PLAZA
Dunwoody, Georgia

Summit Professional Plaza is a 165,000 square foot office complex, comprised of three buildings. This complex will house primary and specialty care physicians and professional services companies. The Mitchell Group is the managing partner of the Owner, The Athenaeum Group, and is one of the occupants.

HOSPITALS & MEDICAL FACILITIES

SOUTHEAST GEORGIA REGIONAL MEDICAL CENTER Glynn County, Georgia

This project consisted of a 56,000 square foot renovation and a 200,000 square foot, six-story structure that enlarged the medical facility by fifty-one percent. In order to keep the hospital operating; we had to phase the project. Close coordination with the hospital staff and teamwork were the “keys” for success in this important project.

FAMILY CARE CENTER

HOSPICE OF THE GOLDEN ISLES Glynn County, Georgia

Mitchell Construction Company teamed up with the Southeast Georgia Regional Medical Center to build several projects. The Hospice of the Golden Isles is one we are especially proud of because it was built to help families “ in our own backyard.” The Hospice was designed to resemble a big family home and is set back from the road and surrounded by trees to give that “home” feeling to those in need of comfort and family during their difficult time.

**GLYNN COUNTY
DETENTION CENTER**
Glynn County, Georgia

Built in Brunswick, Georgia. This 95,000 Square Foot facility has a state of the art computerized detention system and contains 188 individual detention cells and Sheriff's Office.

Central Control Console
Glynn County Detention Center

AUDITORIUMS & CHURCHES

**SPIVEY RECITAL HALL AT CLAYTON
STATE COLLEGE, MORROW, GEORGIA**

This 400-seat recital hall provides an outstanding aesthetical and acoustical setting for the musical world's finest artists. Spivey Hall is located on a beautiful wooded site overlooking a twelve acre lake on the Clayton State College Campus, in Clayton County, Georgia. Mitchell Construction Company was awarded the AGC "Build Georgia Award" for this project.

SCHOOLS/CONSTRUCTION MANAGEMENT

GREER ELEMENTARY SCHOOL
Glynn County, Georgia

Mitchell Construction Company was the Construction Manager/General Contractor for four Schools in Glynn County, Georgia. Greer Elementary School is shown. MCC is proud to have developed a strong relationship with the local School Board. This strong relationship has been based on excellent construction value, quality workmanship, on time delivery, and guaranteed cost control.

HOTELS

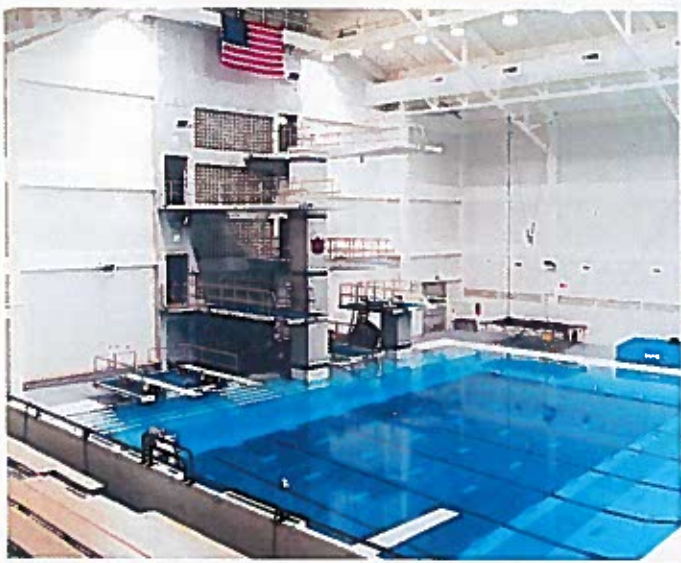

HOLIDAY INN EXPRESS,
Saint Simons Island, Georgia

The holiday Inn Express is a two story, 26,000 Square Foot hotel located on Saint Simons Island, Georgia. This hotel was built in conformance with the local "Island Architecture."

**AUBURN UNIVERSITY
SWIM CENTER**
Auburn, Alabama

This sport facility built on the campus of Auburn University was used by the Olympians to practice during the 1996 Olympic Games.

JOB ORDER CONTRACTING

SHEA STADIUM
New York

Mitchell has become one of the premier Job Order Contracting (JOC) contractors in the country. Photo shown is a typical project on which MCC has worked under a JOC contract with the New York City Department of Design and Construction.

CIVIL CONSTRUCTION

WELCOME CENTER ON I-95, Glynn County, Georgia

The Welcome Center building and restroom complex is located on I-95, between exit 8 and 9, in the state of Georgia. The building is approximately 6,500 sq. ft. The project included the complete demolition of the existing facility, installation of a new sewage disposal system and water distribution system to serve the new buildings, expansion of the parking area to 17,000 square yards, installation of new exterior lighting, landscaping, and rehabilitation of the picnic areas. All of this work was accomplished while the facility was open for traffic. Good coordination and teamwork made it possible.

BRIDGE OVER INTERSTATE 75 Bibb County, Georgia

MARINE CONSTRUCTION

BARGE LOADING/UNLOADING FACILITY

Jacksonville, Florida

This facility was built for the Jacksonville Port Authority, Blount Island Marine Terminal, Florida. This project consisted of adding a new three level structural steel Roll On – Roll Off (RORO) turndeck facility to an existing T-dock. The ramps were AASHTO beam bridges 300 feet long and 130 feet wide. All of this work was constructed without disturbing the traffic from the existing “RORO” ramp.

LARGE SHIP PIER

Jacksonville, Florida

This pier was constructed for Atlantic Drydock Corporation located in Jacksonville, Florida. This structure is 650 feet long and 60 feet wide and used approximately 8,400 cubic yards of concrete including cast in place caps, precast panels and a cast in place topping slab. The bulkhead and relieving platform is 500 feet long and used 2,000 cubic yards of concrete. A 14-month construction schedule was compressed into 9 months with fast track design and construction.
