

Canton Township Trash Collection Update

Good afternoon all,

Beginning Monday, July 29, Priority Waste will be providing automated collection of garbage to Canton residents utilizing ADA-compliant, 95-gallon carts. The new carts will replace the current collection protocol of using 32-gallon containers and garbage bags at the curb.

It's important to note, garbage collection is the only thing changing under Priority Waste. Residents will continue to utilize their current recycling cart for recyclables and yard waste will still be collected in paper yard waste bags or 32-gallon cans. Only garbage bags will go in the new carts.

Delivery of 95-gallon carts will begin the week of July 8. We realize people may be on vacation at the time of delivery. Please encourage the residents in your HOA to work with friends and neighbors on rolling carts to the top of the driveway until they return home.

Although you will receive your cart before July 29, please do not use it until the week of July 29. Any cart put at the curb before July 29 will NOT be collected.
