

We just received word that the Contractor will be out on Wednesday September 11th to do the asphalt patch work. I just want to make sure it's known that there is no guarantee that this fix will hold as there are base issues under the pavement in these areas. We are hoping this will bridge and hold for some time.

Attached is an exhibit showing the areas we will be patching. We will be handing out notices to neighbors on either side of the street where we are working to ask them not to park on the street next Wednesday. Any notice you could give out would be appreciated.

Thanks,  
Phil
