**Road Construction Update - May 14** 

Beginning Monday, May 19, construction will begin to mill and resurface Beck Road from Cherry Hill Road to Michigan Avenue. During construction, traffic will be maintained in both directions with the help of flaggers. Drivers should expect traffic delays and plan their routes accordingly. Weather permitting, this project is anticipated to be completed by mid-June.

\*Please note, work to widen the intersection of Beck and Geddes will not be done until 2026.
