Tribute to “Buskers” Everywhere

- *“Among improvisational performers, accomplished ‘buskers’ are a special breed. They are consummate entrepreneurs and true professional performers. Not only are they paid each and every time they perform before a live audience, they meet the most important characteristic of entertainment professionals: exercising a special set of ethics, skills, practices, and professional etiquette which distinguishes them from other performers. They enrich the world around them each and every time they practice their craft, choosing to ‘fly without a net’ each and every time they engage their audience. Some, not all, take their calling a giant step further, choosing to use their talent to convey a message that they deem important, in order to help, not just entertain, their fellow man. They strive to make the world a more wonderful, colorful, entertaining, enlightened, kinder, gentler, and better place.....one song at a time.”*

History of Busking

(Johnson, 2013; Wikipedia, 2021)

- The term “Busking” was first noted in English language circa 1860. but the practice of busking is found documented in many cultures for centuries.
- “Busker” is a derivation of the Spanish root word, “Buscar,” which means “to seek.” That term, in turn, evolved from the Indo-European word “budh-sko,” which means “to win or conquer.”
- Troubadours, Minstrels, Organ Grinders, Court Jesters, etc., date back to antiquity (e.g. Russia in the 11th Century a.d.)
- “Bottlers” (aka “Hat men” or “Pitch men”) were assistants who solicited donations from the audience, on behalf of buskers, using a device made of a half of a glass bottle with a leather pouch/flap that made it difficult to take money out of the bottle. Bottlers usually worked for a percentage of the proceeds. It was also common to use monkeys as bottlers (e.g. organ grinder and monkey acts).

Who copied his prose with a pen.

Yet Ben sold them again and again.”

- Walk-by Acts – Continual performance acts.
- Circle Acts – Gathering audience for a single performance.
- Café Busking – Restaurants, bars, clubs, taverns, and cafés.
- Pop-up Acts – Surprise celebrities.
- Individual – Single-performer.
- Group – Multiple performers .

“Walk-by Acts”

- Continual performances.
- People may only stop for a moment or two, or up to a few minutes.
- Improvisation and modification of repertoire are key skills.
- “Closing” is often silently solicited by a sign, tip jar on ground, et cetera.
- Having an assistant (a “bottler,” “pitch man,” or “hat man”) to collect donations, sell CD’s, hand out brochures and business cards, et cetera, is a great idea. *“Will you contribute a little something to the performer?”* However, this person’s role is usually lower key with walk-by acts than with circle acts.
- Strategic places allow for listeners to sit for a few minutes (e.g. subway and bus stops, near benches, et cetera).
- May turn in to Circle Acts, depending on size of crowd.

Photo Credit: www.busking.com

“Circle Acts”

- Have distinctive beginning and end.
- Often last longer than Walk-by Acts.
- Crowd often stands in circle or semi-circle.
- Ideal length: 10-20 minutes.
- More tightly rehearsed; less improvisation than Walk-by Acts.
- Donations usually gathered at end of performance.
- Spokesperson announces person “passing the hat.” (referred to in busking parlance as a “bottler,” a “pitch man,” or a “hat man.”)
- Be careful not to impede flow of foot traffic.
- Sometimes more restricted by local ordinances than Walk-by Acts.
- Well-done Circle Acts may have larger potential for financial return.
- Suggest tipping amounts in terms of financial worth (e.g. price of a movie, magazine, sandwich, etc).

“Café Busking”

- Background music, and/or featured entertainment in a café, bar, pub, tavern, or restaurant setting.
- Common in areas where establishment wants “live entertainment,” but lacks funds (or is unwilling to pay) for entertainment.
- Sometimes café busking is a way for the musician(s) to audition for promises of a “paid gig.”
- Performer(s) may receive tips only, tips and drinks/food, or tips + sales of CD’s, et cetera.
- Common in non-union cities where musicians are competing for relatively few paid engagements.

Choosing a Venue (“Pitch”)

While busking in Chicago in 2012, setting up under Marilyn Monroe's skirt seemed like the right thing to do at the time.

As it turned out, I was...uh...upstaged, to say the least. The tourists didn't even see me!

Set-up

- **Set-up.**

- Announce upcoming performance to crowd.
- **Invite crowd to stick around...it's worth the wait!**
- Free CD for the first 3 "Name that Tune" winners.

- **Location.**

- Good traffic flow.
- **Comfortable for both you and the audience.**
- Natural stopping point for passersby.
- **Power outlet, if needed / Electric cords out of way.**
- In compliance with ordinance.
- **Not too near other buskers.**

Props / Equipment

- Musical instrument(s).
- Props and Costuming.
- Change of Clothing.
- Stool (s).
- Sound system.
- Power converter / battery / electric cords.
- Microphone(s) / stands / microphone cords.
- Sheet music / notebooks / et cetera.
- Water. Lots of Water...and Sunscreen!
- Business cards / Brochures / Signs / Promotional Items.

“The Build” and “The Hold” (Getting the Audience’s Attention)

- Building your audience prior to beginning your performance requires attention-grabbing / intriguing measures.
- Often begins during set-up.
- Brainstorm audience-participation techniques.
- Ask for volunteers in audience to help in Act, hand out business cards, brochures, et cetera.
- Pick a cute assistant in the crowd the audience will like (child, cute girl, et cetera).
- Involve the audience as much as possible (clapping, finger snapping, et cetera).
- Good rule of thumb: 1 part dazzling skill to 2 parts humor!

Photo Credit: weekendnotes.com

“The Act” (Keeping the Audience)

- “Read” your audience; choose performance piece accordingly.
- Actively perform. Capture their eyes, not just their ears. Be animated!
- Practice rapid, smooth medley transitions.
- Eye contact, eye contact, eye contact!
- Non-verbally acknowledge your audience’s attention, approval, and their generosity.
- SMILE!
- Develop audience-participation techniques.

Sense of Humor Vehicles

- Signs.
- Eye contact / gestures.
- Amusing body movements.
- Comedic facial expressions and responses.
- Song selection (e.g. “Let it Snow” in hot subway during the summer).
- One-line witticisms.
- Non-verbal interaction with audience (e.g. following a cute girl a short distance).
- Always “work the crowd” and look for environmental humor opportunities (e.g. moving to avoid sudden leaks in roof, et cetera).
- Roll with the punches when distractions happen. Make it an amusing incident, not an annoying one.

“Hat Line” (The Close)

--Soliciting / Receiving Donations--

- May be a verbal or Non-verbal invitation to put money in the hat during “Circle Acts.” (NOT ALWAYS ALLOWED IN CERTAIN CITIES).
- For Walk-by Acts: “Thanks for Listening” sign does not overtly solicit a donation, but gets the point across.
- Put seed money in tip jar at beginning of set.
- Periodically empty tip jar or instrument case.
- Watch for thieves.
- In subway stations, put a “MetroCard” or two in the tip jar. Hey, it’s as good as money!
- Use humor: e.g. a sign stating “Suggestions: Free / Requests: Sliding Scale” (when signs indicating a donation is welcome is allowed by ordinance).
- *(NOTE: When I played on the sidewalk outside Carnegie, I placed a sign on my tip jar that said, “Working My Way Inside,” with an arrow pointing to the front door).*

ENGAGING THE AUDIENCE

“The Human Orchestra”

- Solicit at least 12 – 15 volunteers from the audience.
- Divide into groups of 3-4, and assign the following parts to the Reena-Reena Song:
 - Bass foundation.
 - Percussion.
 - Cymbal sounds.
 - Clapping.
 - Melody line.
 - Up a third harmony.
 - Yada-latah singers with hand motions and foot choreography.
 - Lead counter-melody (you).
- Rehearse hand motions and the end.
- Perform the “Reena-Reena Song” for audience.

IMPROVISATION

Improvisation Tricks of the Trade

- To a large extent, the art of improv can be learned, or improved by practice, practice, practice.
- Musically, improvisation brings life and finesse to your renditions of either “cover songs,” or your own creations.
- Creatively, through certain embellishments, such as chromatics, you can learn to “play by ear,” and to free yourself from being bound by written sheet music.

Embellishments

- Trills.
- Chromatics and Scales.
- Drags.
- Slides.
- Tempo Variation.
- Varied Syncopation.
- Volume Changes.
- Volume Variations.

- Never argue with law enforcement. Cheerfully comply with their directives.
- It may be a good idea to offer a % cut of your tip money...or announcements advertising the store or restaurant.
- Don't forget to offer to play an inside acoustical set, for food or drink.
- If selling merchandise (such as CDs, t-shirts, et cetera, don't compete with the businesses.
- Even if answers to your questions are found in websites or publication, always verify by calling local permit and licensing agencies, police departments, et cetera.

DISCLAIMER RE: “BUSKING-FRIENDLY” CITIES

This list is offered as a guide, based upon reports from local buskers, on various websites. Most, if not all, of these cities have certain limitations, governing allowable locations, times busking may occur, et cetera. Some require licenses or permits. Check with local city officials for local requirements prior to travelling to those cities, and/or setting up to perform. Also, keep in mind that the legal requirements are not often easy to ascertain. When in doubt, contact the local offices of the City Attorney, and/or the City Clerk (or other offices that are involved in issuing permits for public performances).

Ask about what specific areas where busking is allowed, whether or not sound amplification, solicitation of donations, product sales, et cetera, are allowed.

ADDITIONAL DISCLAIMER

The enclosed information is offered according to the most reliable resources available to the Author / Instructors at the time of publication of this training program.

Buskers, if going into a new city, should ALWAYS check with local authorities to confirm and/or clarify individual requirements and limitations imposed by the local government.

The Authors/Instructors are to be held harmless from any liability imposed upon individual performers. This release from indemnity applies to any and all information offered in the Busking University workshop, and/or the www.buskinguniversity.org website. All Students agree to this release of indemnity as a condition of receiving the training.

Sometimes the customers threw something in the hat. Sometimes they took something out of the hat. Sometimes, they took the hat.

Theft Prevention

- Keep tip receptacle close by, within reach.
- If possible, have a friend there to fetch water, to guard money, and to shill, if necessary.
- Thieves will sometimes use distraction ploys and work in teams.
- Keep dollar bills weighted down to avoid them blowing away.

BUSKING DURING COVID

Caution re: Public Requirements Making Masking, Distancing, and Crowd Limitations

- Be sure and check with local authorities re: community limitations due to COVID risk.
- These limitations may include, but are not limited to:
 - Masking requirements.
 - Social distancing requirements.
 - Facilitating crowd-gathering.

There is More than One Way to Skin a Cat

- Posting on YouTube can allow you to busk at a distance, while offering a link where your audience can choose to “tip” you via Venmo, CashApp, and PayPal on your personal website.
- Don’t forget to offer explicit, easy-to-follow directions on how to tip.
- This is also an excellent way to sell merchandise.
- It is also very inexpensive to purchase a url address (GoDaddy.com is highly recommended) which can include a free 5-page website to promote your music and products.
- Work on developing your “stage presence” when recording your busking sessions.

Busking During Covid

BUSKING ETIQUETTE

Key Points of Busking Etiquette

- Don't "cut in" without an invitation.
- If possible, approach other buskers during a break; begin by tipping them, and then gently breach the subject of a "sit in."
- Don't overwhelm. Remain a back up to their act, unless explicitly invited to take a lead in the set.
- Not all ingredients mix well. Make sure you're compatible.
- Don't expect financial remuneration. Let the hosting busker(s) keep the tip money. If it's a great set, they may choose to tip you.
- Don't outstay your welcome, especially when sharing a busking location.
- If being followed by another act, offer to introduce them...especially if there is going to be a slight delay in setting up, et cetera.

Don't Block Foot Traffic!

Photo Credit: The Buskteers

Problems with Blocking the Sidewalk

- Blocking walkway is one of the most sure-fired ways of getting complaints from merchants, and calls to the police.
- Also, it may encourage pedestrians to cross to the opposite side of the street.
- Also, do not block window-shopping opportunities for passers-by.
- Look for set-up spots that allow plenty of pedestrian traffic, while still allowing you to set up (especially with multiple performers).
- Rudeness → far-fewer tips.

Avoid Being Upstaged

AMPLIFICATION

To Amplify or Not to Amplify: That is the Question

Photo Credit: YouTube: Testing the Busking Rig

- Check local ordinances.
- Special permits may be required for amplification.
- Best option: Audible up to 40 feet away. Don't drown out other buskers.
- Always be ready with "Plan B."
- "Too loud" attracts complaints.

Making Amplification Choices

(busk.co)

- Battery-Operated amps GENERALLY BEST.
- Don't necessarily buy the cheapest. Test quality at retailer first.
- Better deals generally found online. Compare prices!
- Test with condenser microphones, if needed. Some amps do not accommodate them.
- Another option: Purchase marine battery and electric converter.
- Carry in roller cart. Look for most comfortable/convenient/durable.
- Buy high quality cables. Bring spares!
- How many channels needed?
- Guitars? Vocals? Some amplifiers do not accommodate both.

Shop Around and Test Each One / Price Compare
