Mindcapital OÜ  
Registration Code: 14933474

GAIA is our own ecosystem of products, which allows the integration of tools and products that make Mind Capital a company that, in addition to being profitable, is even more solid and dynamic.

Mind Capital is the creator of a system of high technology to make cryptoactive profitable.

After several years researching blockchain technology, we are able to study in real time the evolution of the main cryptoactives and their selling price in different currencies and find the optimal moments for buying and selling.

Our platform allows anyone to participate in the profits obtained

## Profitability is our priority

The technology developed by mind.capital allows us to study the evolution of the main cryptoactives and their price in different currencies and operate in the market using advanced algorithms.

After years of research, we have optimized the system to obtain maximum profitability.

- Real-time monitoring and analysis of the main cryptoactives and their price in different currencies
- AI algorithms developed to find the best opportunities
- Continuous optimization and adaptation of the platform

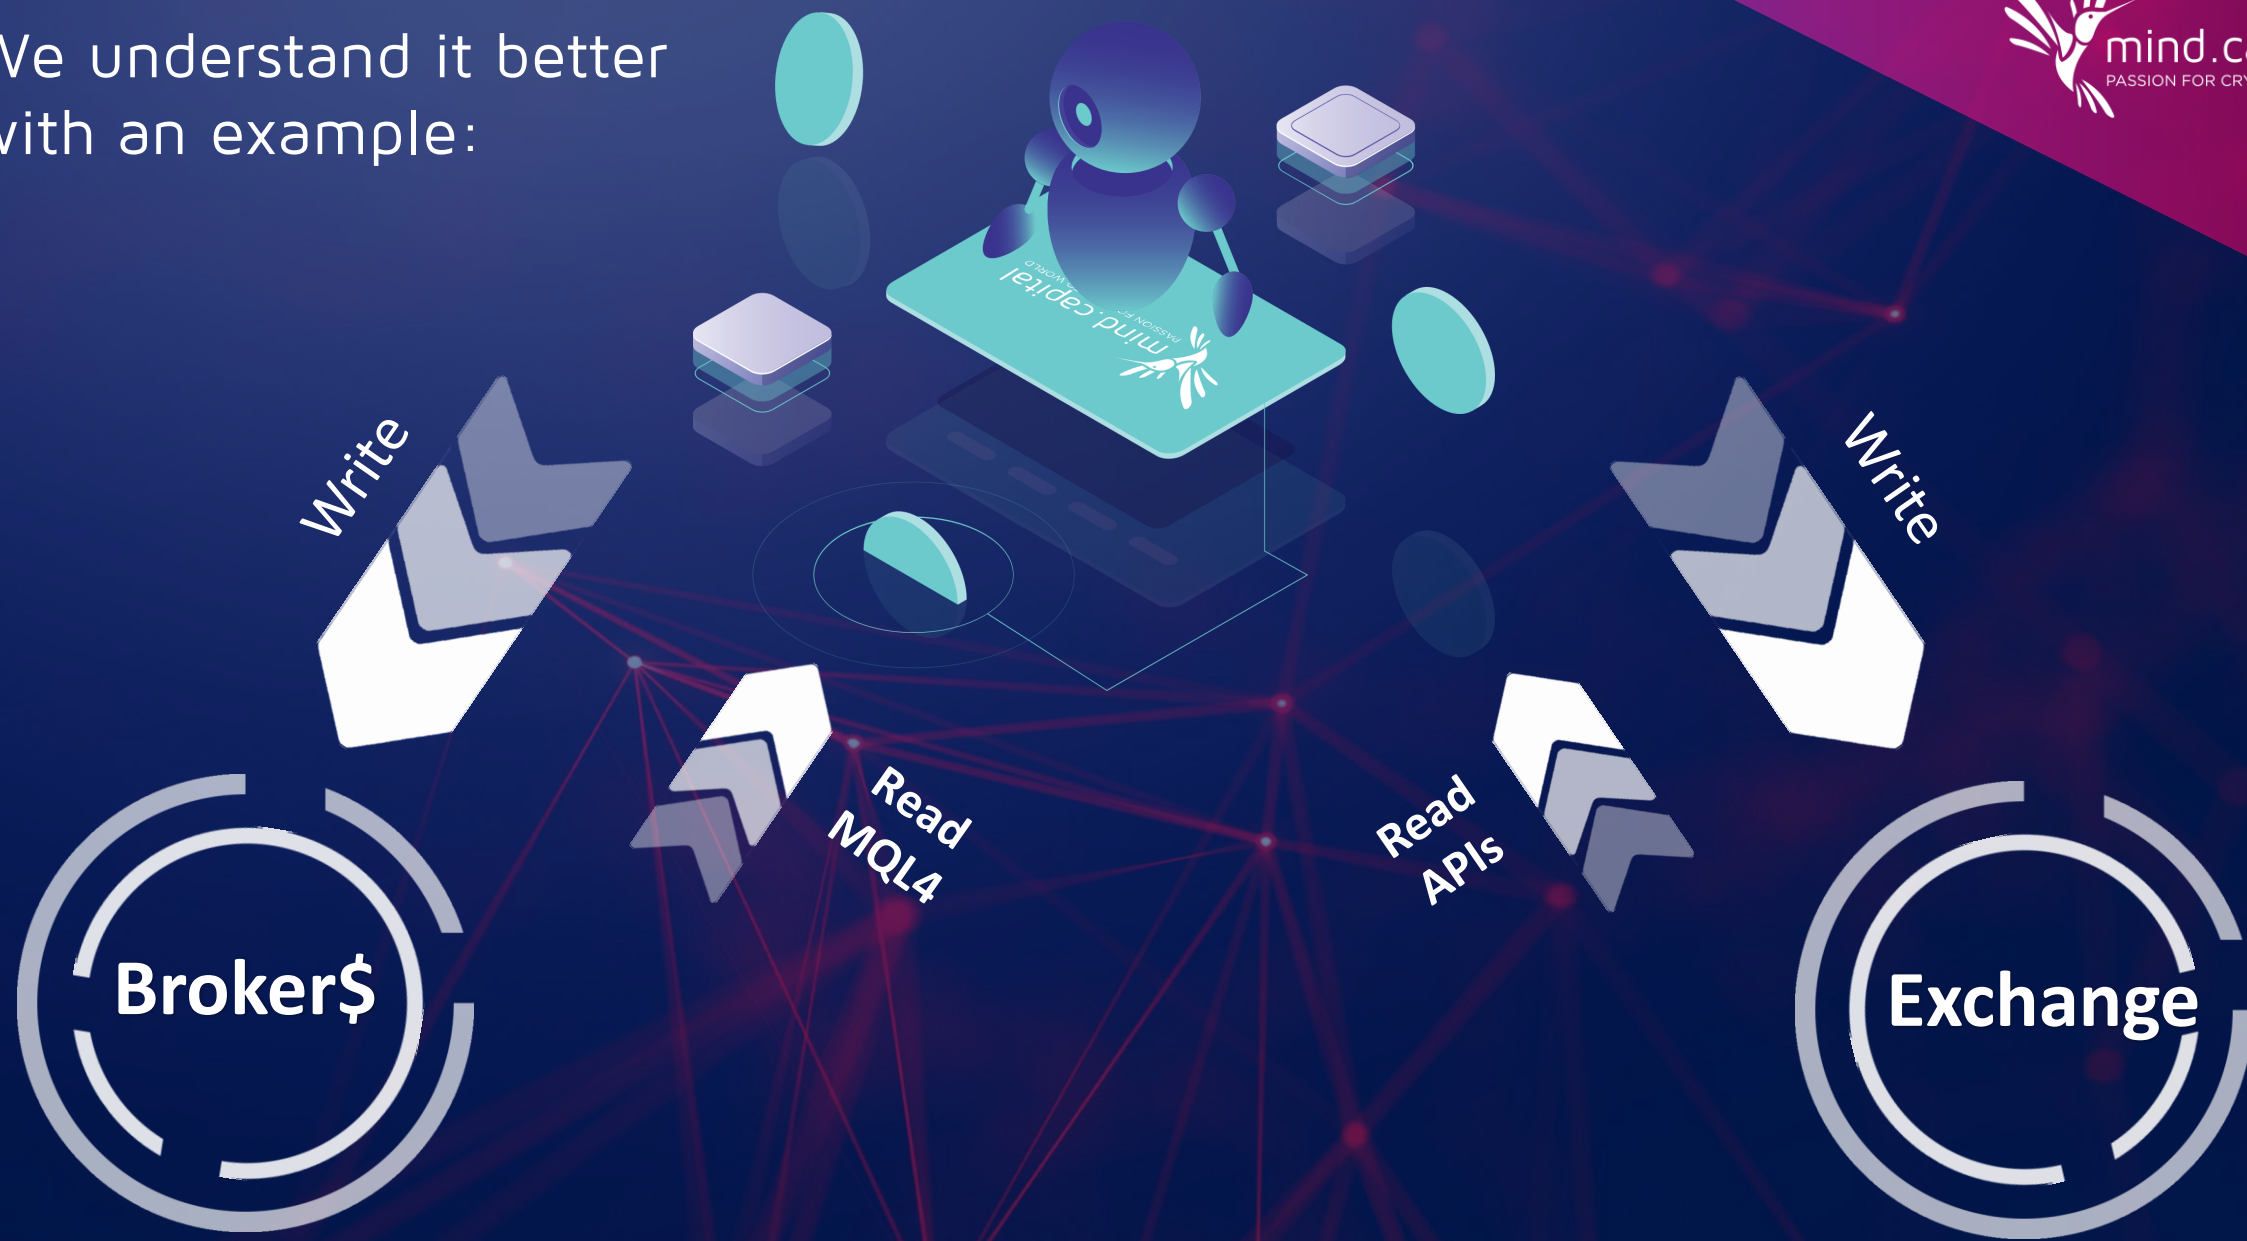

## What is the arbitrage that we develop?

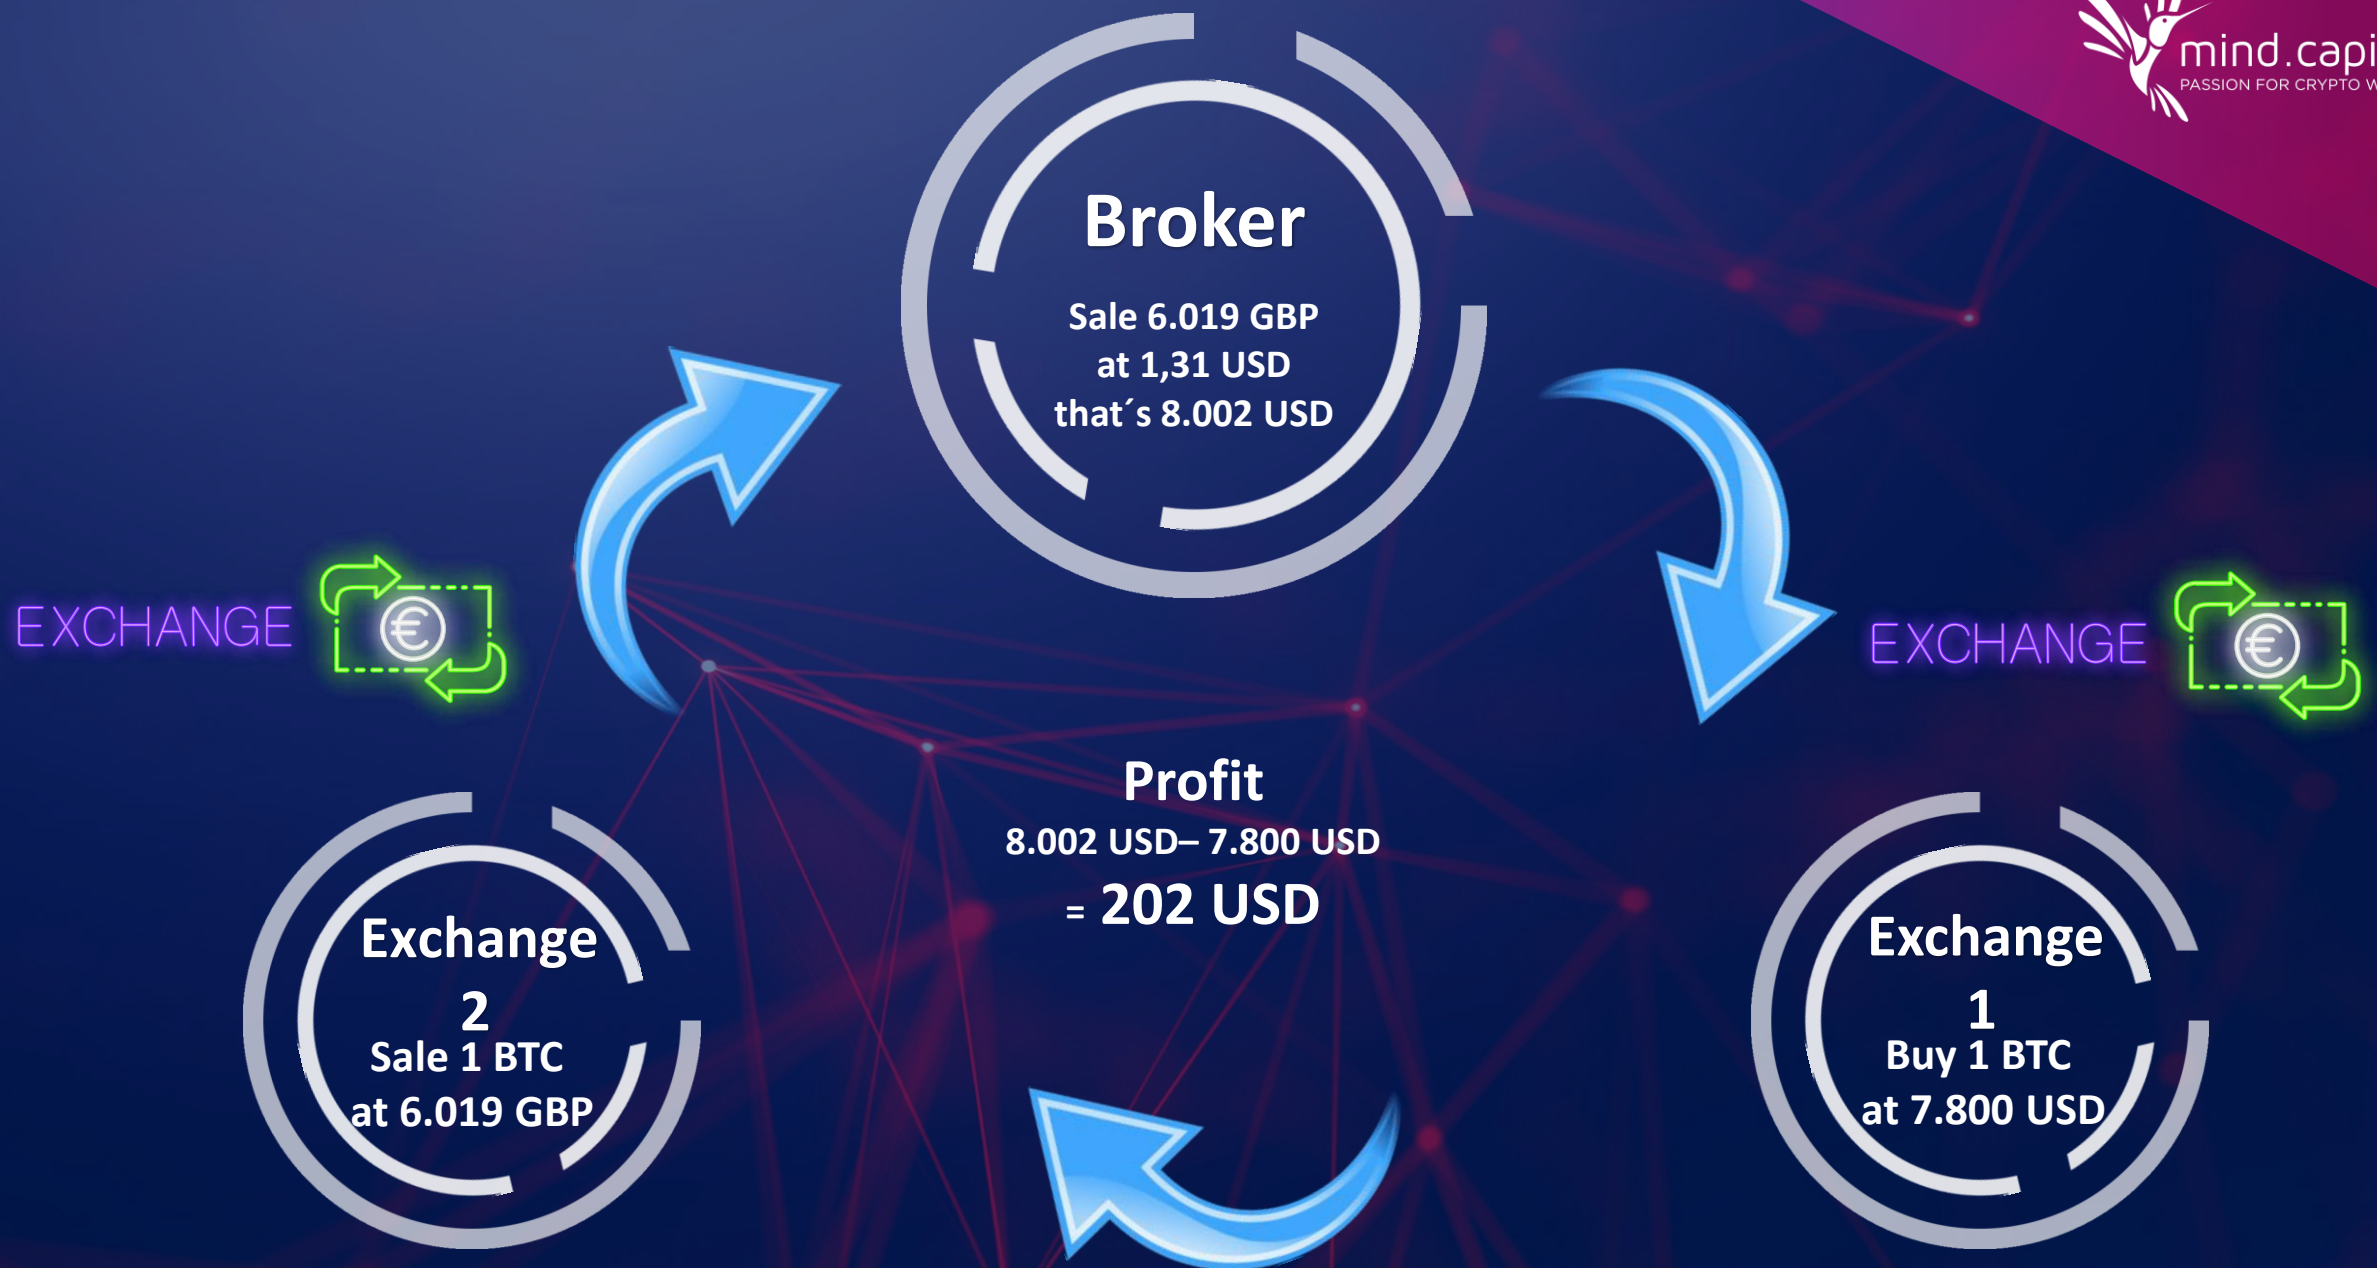

Our bot gets excellent results...

- Studying the quotations in the exchanges.
- Locating opportunities.
- And executing the necessary orders to take advantage of every opportunity.

We understand it better  
with an example:

MCcoin is our exclusively internal use token, without ICO, or price variation, which will be unalterable and equal to one dollar.

The use of MCcoin, exclusively internal, guarantees the consolidation of the Mind Capital project.

1 MCcoin = 1 US dollar.

MC COIN

A sustainable benefit that comes from profits.

## The compound interest power.

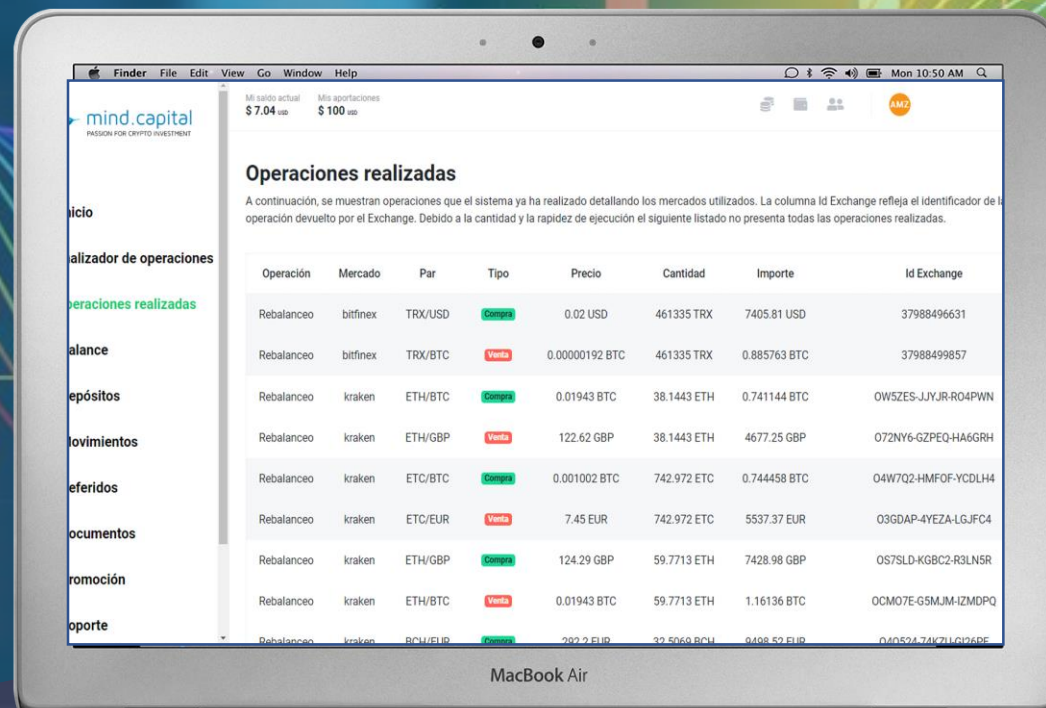

To maximize your profits and take advantage of the enormous potential that compounding brings to the table, your account is setup to auto-compounding by default and it will add a new deposit as soon as you have \$100 or more and it will always do it only in multiples of \$10, for example, if you have \$122 available it will only deposit \$120.

We want you to be able to follow our activity.

At any time from your control panel you will be able to see in real time how our Artificial Intelligence algorithms working and find each performed operation.

We also have Technical Zoom (Live Video Conferences) to show in real time our way of operating and solve doubts.

# \$40 MCcoin

1 MCcoin = 1 american dollar.
