

OASIS OF HOPE

WEEKLY REPORT OF OASIS OF HOPE MATHARE

HI FRIENDS

How are you? Hope this report finds you well. This is my friend co-worker, Sam. We celebrated his birthday this week together.

Six of our children did their final examination for primary level. I am impressed with **Dancun who got 369 marks out of 500 marks**. Getting such marks for a child who lives in Mathare slums is exciting. Most of the children here spend their time out of school because they can't afford school fees and basic necessities against all these challenges. Dancun made us proud.

Dancun is also taking a leadership role at Oasis of Hope he is also talented in playing football. He trust God for finances to enable him to join high school. He is the second born in a family of six.

THE PAIN OF LOSING A CHILD

Tuesday this week I learned of the sudden death of John, He was 17 years old and was a high school student. John was the firstborn in a family of two. He was not sick he just collapsed and died while chatting with his friends. His sister Naomi is a member of our program. We visited the family on Tuesday afternoon. Naomi and her mother were in great pain.

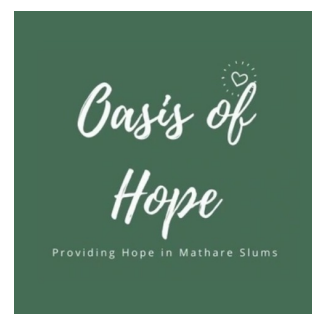

His mother trusted God for a child for many years after marriage. It is lack of children that led her to salvation. I found it difficult to encourage the family, we are still helping the family in prayers as they plan for the funeral, our football teams are organizing matches to raise funds for the funeral. **Kindly remember this family in prayer.**

We are happy to have you walk besides us.

May God bless you abundantly.
