

MARCH 2021 | WEEK 1

# OASIS OF HOPE

WEEKLY REPORT OF OASIS OF HOPE MATHARE

THANK YOU for giving financially last year to my good friends, Jacob and Maureen, and their ministry, [Oasis of Hope](#), which reach hundreds of youth weekly in the slums of Nairobi, Kenya.

In 2020 we helped during the pandemic feed hundreds of families, create dozens of small businesses, and bring the hope of Jesus to many through word and deed.

Every week I am on the phone with him and walking with him. **You and I can't be there, but we can walk beside him in prayer and giving and care.**

Every story matters. You will hear stories of youth like **Rehema** and others who's life and family have been impacted for good.

Each week you will receive a short report of their work and I hope it makes you smile, pray, and remember the people and needs around the world. Here we go!

Serving with you,  
**Brian Clark**

Inspiring video below! **Oasis of Hope brought in acting classes when school was shut down last year.** They trained 60 youth and six of them have been hired for a movie! It is being shot on location in Mathare. Click below to see the preview.

*Thank you for supporting us*

## Outreach

**Every week on Saturdays we have between 150-200 youth for activities and Bible club.**

These kids have been coming for years because they are loved, hear God's Word, and also get snacks!

Last week while doing our outreach program we visited **Christine**. She has been sick for some time now. She is suffering from TB and high blood pressure.

Her son, **Sam**, is a very dedicated member of Oasis of Hope. He has been making videos and photos when we have our activities.

We mobilized a group of well-wishers to raise some cash for Christine's upkeep and to hire someone to help her with her laundry and house chores.

During the visit, we shared Romans 8:35. We were encouraged with her praying habit and how she loves the word of God even when she is in pain.
