Fleet-WiSe™ Management Group provides global consultancy services to military, first responders, educational institutions, businesses, and all levels of government. Our team delivers expertise and resources to help clients achieve their objectives. We offer a consulting center, asset management for data analysis, vehicle fleets, stationary assets, and also facilities management and sustainment support.

Management Experience. Fleet-WiSe is an organization of multidisciplinary consulting engineers and specialists that provide engineering and technical services, with an emphasis on safety, sustainability, and innovation. The staff and associates have experience of managing vehicle fleets and facility operations. The team's background includes work with federal and commercial fleet and facility management. As a result, the group has familiarity with the operational aspects of vehicle fleets and facility maintenance in both U.S. and international contexts, as well as the requirements of ensuring secure, reliable logistics and effective facility management in a variety of environments.

Subject Matter Experts (SME). Few Service-Disabled/Veteran-Owned Small Business management firms in the world can match the experience, recognized expertise, and reputation for high-quality work in the fleet and facility management field as Fleet-WiSe Management Group. Designations include Florida Disabled Veteran Business Enterprise and Service-Disabled Veteran-Owned Small Business as well as various individual professional certifications (e.g. Certified Federal Fleet Manager, Federal Fleet Specialist & Federal Fleet Administrator).

Fleet Management Certifications and Training. Fleet and asset management certifications are designed to meet the increasing need for specialized training and accredited qualifications within the personal property and fleet management sectors. Each program is developed by experienced professionals with extensive backgrounds in both public and private domains, ensuring that every course delivers practical relevance and the latest industry insights.

Management Services. Our management services include project management, operational analysis, interim management & administrative staffing, fleet composition, due-diligence studies and audits, etc.. We hand-pick multi-tasking individuals or develop small specialty and project teams to produce innovative, cost effective solutions for your technical requirements. We team local and global knowledge for the benefit of our clients, as needed.

Total Company Fleet Makeover. We evaluate the "health" of your vehicle(s), the curb-side appeal, work functionality, security, administration etc. and develop a "wellness" plan to address any areas requiring attention and improvement. We work with clients to build strong strategic plans, identify fleet-health goals, and then document paths to continuous improvement.
