A JOURNEY WORTH TAKING

To ensure better understanding, this program offers private sessions via M-Teams. Respecting each other's privacy, all mentorship sessions will be live and unrecorded, allowing for real-time interaction and doubt clearance.

The best part is that we can mutually agree on and select convenient timings for our discussions.

This program runs for seven (7) days with one (1) hour session per day. There may be no sessions on Saturdays and Sundays to allow for family time. If you decide to proceed, please confirm before making any payment.

Knowledge Fee: USD 399.00 only

Master the art of online trading. Safeguard your money, build wealth, and pass on the knowledge to your children, ensuring they won't rely on a single source of income.

BENEFITS:

Investing in knowledge yields the highest returns. Upon completing this program, you will be equipped to trade any financial instrument with confidence, armed with proper knowledge, risk management skills, and a solid trading plan.

Technical Analysis is a valuable skill; invest in yourself before investing in the market. You will be able to trade Stocks, Cryptos, Forex, and Commodities.

Trade. Learn. Earn. Enjoy.

Melvin is a superb trading mentor! Highly recommend his expertise.

His ability to break down complex concepts into easy-to-understand terms is truly commendable. He patiently answers questions, provides real-world examples, and ensures that his students grasp the fundamentals of trading. His passion for the subject matter is evident.

Moreover, his emphasis on risk management and discipline has been invaluable in navigating the often-volatile stock market. He has truly made a significant impact on my trading journey and I'm grateful for the opportunity to learn from him.

"I attended Stock Market course with Melvin.

He taught me how to read the stock market trends, and what action can be taken to achieve the maximum profit depending on my preference.

I learned a lot from the course, and it was very beneficial.

I liked Melvin. He is an excellent teacher. He was very friendly and helpful.

The session timings were flexible. The sessions were online, which made them easier for me to attend.

I highly recommend taking courses with him."

I started stock trading using self help books, but it is ineffective. That's the time I convinced myself to look for a mentorship program to learn and have someone answer my questions.

Expat Stocks provided the friendly, simplest approach and straight to the point lessons. Now, I don't feel overwhelmed interpreting a chart and learned how to associate with technical indicators. The mentorship I had was a big help on my stock trading venture. Fee is affordable for the lessons I learned that will be for a lifetime.

I highly recommend Expat Stocks to everyone who wants to make extra money by stock trading online. I am new to this, and Melvin taught me how to make the right approach and be profitable. I like the way he treat it as a business which I believe is a good foundation because it lessens the fear when you are disciplined.

He is very approachable and prompt in responding to my inquiries, in both theories and the actual trading charts. He is so generous in sharing his knowledge even when the full training is over. This training was a great eye-opener of understanding how stock market works and the technical analysis. The training fee was a money well spent. As the saying goes "there's no more profitable investment than investing in yourself". 😊

I connected with Expat Stocks to attend their stock trading and technical analysis online sessions and I must say I learned a lot!

Sir Melvin was amazing throughout the entire program. He was able to explain complex trading concepts in a way that was easy to understand, even for those of us who had little to no experience in trading.

The training sessions were well-structured and included a mix of theory and actual examples, which allowed us to put the concepts we learned into practice right away.

Apart from his unique trading plan, what made the sessions more interesting were his words of wisdom that motivates me in the way I view stock trading "business"

Overall, I would highly recommend Expat Stock to anyone into trading (may it be beginner or someone who's looking to improve their skill sets). I thank Expat Stocks and Sir Melvin for providing such a valuable and worthwhile experience!

Gusto ko talaga mag trade dati pa kaso hindi ko alam saan magsisimula. Yung ibang traders ang lalaki ng fee, aabot ng P100K plus. Kaya napaka swerte ko po nakita kita, super worth it talaga. Excited na ako dahan dahan simula nang trading. Salamat sa Expat Stocks.

I just want to say thank you so much Sir Melvin for a detailed, professional trading course. I invested for myself in the trading course because I need a second source of income, and I am also planning to pass this skill to my children someday.

I highly recommend Sir Melvin. Very knowledgeable and professional; he doesn't mind the time in each session as he was making sure I understood every topic before we wrap up for the day. You're like getting the best of both worlds when you enroll at Expat Stocks. Every topic was discussed clearly, and Sir Melvin often goes out of his way just to make sure we are satisfied and confident to what we learned. Plus, he charged cheap as compared to other traders who are charging P100K up just to learn trading.
