INDEPENDENT AUDITORS' REPORT

To the Board of Supervisors
Gull Lake Sewer and Water Authority

We have audited the accompanying financial statements of Gull Lake Sewer and Water Authority as of and for the years ended March 31, 2012 and 2011 as listed in the table of contents. These financial statements are the responsibility of Gull Lake Sewer and Water Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of Gull Lake Sewer and Water Authority at March 31, 2012 and 2011 and the results of its operations and changes in cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (identified in the table of contents) be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying financial information listed as supplemental information in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements of the Gull Lake Sewer and Water Authority. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Gull Lake Sewer and Water Authority Management's Discussion and Analysis

Using This Annual Report

This annual report consists of the Statements of Net Assets, the Statements of Revenues, Expenses and Changes in Net Assets, and the Statements of Cash Flows. Along with the footnotes, they provide detailed financial information concerning the Authority (Gull Lake Sewer and Water Authority). This section, Management's Discussion and Analysis, is intended to provide an overview of the Authority's financial condition, results of operations, and other key information.

Financial Overview

In analyzing the Authority's financial position, it is important to recognize the mission of the Authority. From a financial perspective, the Authority's core objective is to manage the long-term costs of providing sanitary sewer service to the businesses and residents (collectively the Users) of participating Municipalities. The Authority acts as agent of the participating Municipalities. The quarterly amounts charged to Users approximate the operating costs incurred by the Authority in providing sanitary sewer collection and subsequent treatment at the City of Kalamazoo's regional facility. In addition to the annual operating costs of providing sanitary sewer, the Authority is responsible for the repayment of long-term bonds and other debt obligations incurred to finance construction of various portions of the sanitary sewer system. Capital costs are generally charged to the benefiting property owners, the land owner(s) and/or developer(s), at the time the infrastructure is constructed.

A significant non-cash expense of the Authority is depreciation. For budgeting purposes and setting user rates, management does not consider depreciation expense. Depreciation expense represents costs associated with the construction of the sanitary sewer system. Also, customer principal payments from assessments on the benefiting properties and Authority principal payments made on long-term financing are not reflected as revenues or expenses of the Authority.

	2012	2011
Total operating expense	\$ 1,602,376	\$ 1,561,550
Less depreciation and amortization	 (472,154)	 (479,846)
Operating expenses, net of depreciation and		
amortization	1,130,222	1,081,704
Users (expressed as units)	4,428	4,584
Cost per Unit	\$ 255	\$ 236
Less depreciation and amortization Operating expenses, net of depreciation and amortization Users (expressed as units)	\$ 1,130,222 4,428	\$ 1,081, 4,

The Authority's costs of operating are primarily affected by wastewater treatment charges from the City of Kalamazoo and the costs of employed personnel. The sanitary sewer system covers a geographic area of 15 square miles. It is projected that over 500 new users will connect to the sewer system over the next ten years. Some of these users may be other than single family homes and contribute flow greater than single family homes (equivalent units of flow).

The Authority's net assets decreased approximately \$394,000 in 2012 and \$295,600 in 2011. The decreases primarily represent the excess of annual depreciation expense over annual capital asset additions. In years net assets increase, the increase is driven primarily from new public sewer construction and benefiting property owners paying connection fees. In years with minimal sewer expansions, net assets decrease primarily due to depreciation expense. There has been minimal sewer expansion in the Authority's district over the past two years.

Gull Lake Sewer and Water Authority Management's Discussion and Analysis

Authority assets, liabilities, and net assets are summarized as follows:

	2012	2011	% Change
Capital assets Other assets	\$ 13,585,004 1,906,976	\$ 14,047,678 1,939,277	(3.3) (2.0)
Total assets	15,491,980	15,986,955	(3.1)
Long-term liabilities Other liabilities	185,500 149,224	311,874 124,154	(40.5) 20.2
Total liabilities	334,724	436,028	(23.2)
Net assets: Invested in capital assets, net of related debt	13,371,276	13,726,448	(2.6)
Restricted assets: Contractually restricted Board restricted Unrestricted assets	234,404 1,201,355 350,221	395,943 1,157,237 271,299	(40.8) 3.8 29.1
Total net assets	\$ 15,157,256	\$ 15,550,927	(2.5)

Restricted net assets represent the total of all assets restricted for future capital improvements and repayment of bond obligations.

	 2012	 2011	% Change
Operating revenue Operating costs	\$ 1,151,538 1,602,376	\$ 1,192,081 1,561,550	(3.4) 2.6
Net loss from operations	(450,838)	(369,469)	22.0
Net non-operating revenues	 28,307	 38,086	(25.7)
Loss before capital activity	(422,531)	(331,383)	27.5
Capital contributions, net of writedowns	 28,860	 35,738	(19.2)
Change in net assets	\$ (393,671)	\$ (295,645)	33.2

Absent depreciation, the Authority had an excess of operating revenues over operating costs of approximately \$21,000 and \$110,000 for 2012 and 2011 respectively. Operating revenues decreased by 3.4% for 2012 and increased by 4.0% for 2011.

Gull Lake Sewer and Water Authority Management's Discussion and Analysis

Treatment charges are a significant portion of the Authority's operating budget. At the end of fiscal 2011, the City of Kalamazoo raised the rate charged to the Authority by 3% and raised the rate by another 3.5% at the end of fiscal 2012. In addition, the Authority received a "true up" (look back) treatment charge billing for \$12,859 in fiscal 2011 and a credit of \$7,549 in fiscal 2012. A 1994 amendment to the Authority's 30 year contract for wastewater treatment services extends the Wastewater Discharge Contract with the City of Kalamazoo to July 2024. Renewal of this long term wastewater treatment contract is anticipated prior to 2024.

In 2012 and 2011, the Authority recognized net contributed capital of \$28,860 and \$35,738, respectively. Based on review of the security of contractual liens, the Authority no longer finances Utility Projects or Connection Fees for new users connecting to the system (no longer accepts Connection Fee Contracts). At March 31, 2012, the Authority estimates \$28,000 of contracts receivable could be in a second lien position. The Authority evaluates the collectability of these contracts and makes a provision for losses on a contract by contract basis. Management believes liens of Assessment and User Fee receivables are protected by priority lien positions.

Capital Assets and Debt Administration

The Authority had \$5,220 and \$5,291 in new sewer construction during fiscal 2012 and 2011, respectively. In fiscal 2013, it is not anticipated the Authority will incur debt for major repairs and/or replacements.

During 2009, the Gilmore Farms Sanitary Sewer – 30th Street Project (public portion) was constructed for \$434,141. The Authority initially contributed \$113,000 towards the project and the developer contributed \$375,000 based on the estimated \$488,000 construction cost. In recognition of the developer contribution to the Project, the Authority and the Township agree to refund to the developer 50% of the Indirect Connection Fees received from the developer by the Authority on behalf of the Township from the first 300 residential units constructed on the property connecting to the Project and connecting to additional public sewer to be constructed by the developer at the developer's cost. Through the initial contribution and refund of connection fees, it is estimated that the Authority will be responsible for approximately 60% of the project cost. There have been no connections to this project as of yet.

During 2011, construction was completed on an addition, remodel and site improvements to the Gull Lake Sewer & Water Authority office building at a cost of approximately \$377,000.

Beginning in calendar year 2011, the Authority initiated a 3-5 year program to locate, find, minimize and/or eliminate Clean Water from entering the public sewer system in order to control costs. Clean water (groundwater) enters the public sewer system primarily through leaks within the Authority's pipes system, leaks within the customer's property, and residential clean water sump pumps. The cost of initiating, implementing and administering this program is expected to be offset by the long-term savings of treatment cost expense.

At this time, it is not anticipated that any projects currently planned for 2013 would have a significant effect on the operations or financial position of the Authority.

Gull Lake Sewer and Water Authority Management's Discussion and Analysis

Economic Factors and Next Year's Rates

Each year, the Authority monitors its cash flow for operating expenses and makes recommendations to the participating municipalities for rate increases necessary to fund operations and maintenance. The last time the Authority increased its rate to Users was mid-2008 by 8%. Due to (i) increasing treatment costs of the City of Kalamazoo, (ii) lack of new connections (economy), (iii) loss of customers from foreclosures, (iv) increasing repair, utilities/fuel and other costs, and (v) the increasing costs of repairing and replacing our infrastructure, the Authority found it necessary to increase rates based on current economic projections. Effective October 1, 2012 the rate for single family residences will increase from \$65 to \$70 per quarter (7.7%). Effective October 1, 2013 the rate will increase from \$70 to \$74 per quarter (5.7%). Effective October 1, 2014 the rate will increase from \$74 to \$78 per quarter (5.4%). Dependent upon a number of factors, rates may level off or continue to climb after the next three years. Commercial or industrial customers pay the single family home rate times a multiplier based on average domestic use by a single-family home expressed in units. For commercial customers served by public water, the public water meter is used from time-to-time to appropriately calculate and adjust the units for the multiplier based upon actual consumption.

Contacting the Authority's Management

This financial report is intended to provide the Authority's citizens, taxpayers, customers, and investors with a general overview of the accountability for the money received by the Authority. If you have questions about this report or need additional information, the Authority welcomes you to contact Rich Pierson, Director, or Anne Richmond, Administrative Assistant, Gull Lake Sewer & Water Authority, at (269) 731-4595 or via email at piersonr@tds.net or richmonda@tds.net. Additional information is available on the Authority website at www.glswa.org.

NOTE A - Summary of Significant Accounting Policies

Authority Formation and Mission

Gull Lake Sewer and Water Authority (the Authority) was established by the Townships of Ross and Richland, Kalamazoo County, and the Townships of Barry and Prairieville, Barry County and incorporated under the provisions of Act 233, Public Acts of 1955, as amended. The Authority is governed by a board composed of the supervisors or an elected official appointed from each of the constituent Townships. The Authority was formed to operate, maintain, administer and manage sewage collection systems and water systems pursuant to Act 94, Public Acts of 1933, as amended.

The Authority transports sewage through its system to the City of Kalamazoo under a treatment contract that expires in 2024. Management anticipates that the contract will be renewed prior to 2024.

Statement on Accounting Policies

The accounting policies of Gull Lake Sewer and Water Authority conform to generally accepted accounting principles as applicable to governments. The Authority applies Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989 and included in the codification of accounting standards on July 1, 2010, unless those standards conflict or contradict with Governmental Accounting Standards Board (GASB) pronouncements, in which case, GASB prevails. The Authority has elected not to follow FASB pronouncements and APB opinions issued after November 30, 1989.

Scope of Reporting Entity and Basis of Presentation

The financial statements of Gull Lake Sewer and Water Authority contain all the funds that are financially interdependent on the Authority's executive or legislative branches. The most significant manifestation in determining the reporting entity is financial interdependence. Other manifestations to be considered include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations and accountability for fiscal matters. Other criteria used to evaluate potential component units for inclusion or exclusion in a reporting entity is the existence of special financing relationships regardless of oversight responsibilities. The Authority does not have any potential component units. Based on these criteria the Authority is considered a reporting unit and is not considered a component unit of the Townships.

Basis of Accounting

All activities of the Authority are accounted for in a single proprietary fund. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the statement of net assets. Net assets are divided into the following components: invested in capital assets-net of related debt, restricted for debt service and other purposes, and unrestricted.

NOTE A - Summary of Significant Accounting Policies (Continued)

Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. Activities of the Authority are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when they are incurred. Operating activities include all revenues and expenses associated with sewer activities. Non-operating revenues and expenses relate primarily to financing and investing activities.

Use of Restricted Assets

Certain deposits and investments are restricted by contract and/or Township ordinance for debt service. The Board has designated other funds for future maintenance and capacity of the sewer system. These monies are categorized as designated for capital improvements and significant repairs and replacement. Board designated funds were generated primarily from capital charges and a 2010 transfer from operating cash. Costs of capital improvements and significant repairs and replacements are funded from these restricted assets.

Fixed Assets

Fixed assets of the Authority are accounted for on a cost of services or "capital maintenance" measurement focus. Fixed assets are valued at cost. Donated fixed assets are stated at their fair market value on the date donated.

Depreciation of all exhaustible fixed assets is charged as an expense against operations. Depreciation has been provided by using the straight-line method over the estimated useful lives of the related assets as follows: Buildings - 20 years, Sewer Lines - 50 years, Equipment - 10 years, Vehicles - 10 years and Water Lines - 50 years.

Capitalized Interest

Interest costs on debt incurred to finance fixed asset additions is capitalized during the construction period for additions greater than \$1,000,000 and six months duration. Interest is capitalized at the rate of the associated debt instrument based on the cost incurred on the related construction until such time as the sewer system is ready for service. The interest capitalized is added to the carrying cost of the sewer system.

Estimates

Preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates by management. Estimates are subject to change and, accordingly, actual results may differ from the estimates used in preparation of the accompanying financial statements. These financial statements include estimates primarily as to the depreciable lives and salvage values of fixed assets, and the current portion of contracts receivables.

Cash and Cash Equivalents

For purposes of the statements of cash flows, all highly liquid investments, with a maturity of three months or less when purchased, that are not restricted for capital additions or debt retirement are considered to be cash equivalents.

NOTE B - Cash, Deposits and Investments

The State of Michigan allows a political subdivision to authorize its treasurer or other chief financial officer to invest surplus funds belonging to and under the control of the entity into certain instruments described as follows: bonds, securities and other obligations of the United States, or an agency or instrumentality of the United States; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a financial institution in compliance with section 6 of PA 105 of 1855, MCL 21.146. Financial institution means a state or nationally chartered bank or a state or federally chartered savings and loan association, savings bank or credit union whose deposits are insured by an agency of the United States government. The Authority may invest in commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase; in United States government or federal obligation repurchase agreements; in bankers' acceptances of United States banks; in mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan; or in surplus fund investment pools.

The Authority's cash and restricted assets were held with eight different banking institutions with locations in southwest Michigan. Authority management monitors cash held at financial institutions and transfers cash balance that significantly exceed federal insurance limits.

Balances at March 31 related to cash and cash equivalents and deposits (including certificates of deposit with greater than 90 day maturities at purchase) are detailed on the balance sheets as follows:

	lotais			
	(Memorandum Only)			
	2012 2011			
Cash and cash equivalents	\$ 291,507	\$ 202,765		
Restricted assets (See Note D)

maturities at date of purchase	422,459	419,805		
Deposits	797,821	850,857		
Totals	\$ 1,511,787	\$1,473,427		

Cash and deposits (including restricted assets) at March 31 as shown by carrying amount and bank balance and classified by categories of credit risk are itemized as follows:

	20	12	20	11
	Carrying	Bank	Carrying	Bank
	Amount	Balance	Amount	Balance
FDIC insured Uninsured and	\$ 1,511,787	\$ 1,581,840	\$ 1,392,236	\$ 1,417,802
uncollateralized	<u> </u>		81,191	81,191
Totals	\$ 1,511,787	\$ 1,581,840	\$ 1,473,427	\$ 1,498,993

NOTE B - Cash, Deposits and Investments (Continued)

Certificates of deposits totaling \$422,459 are recorded at cost which approximates the value the Authority would receive if it surrendered the certificates and demanded payment.

NOTE C - Receivables

Customer accounts receivable represent current sewer usage charges receivable. Unpaid customer accounts receivables are added to the tax rolls after approximately one year.

Long-term contracts receivable at March 31 consists of the following:

	Current Portion			To	tal		
		2012		2011	2012		2011
Connection fees	\$	11,000	\$	17,000	\$ 29,269	\$	53,842
Developers		1,000		1,000	42,600		43,200
Municipalities,							
assessment rolls		48,000		42,000	170,710		212,576
	\$	60,000	\$	60,000	242,579		309,618
Less current portion					(60,000)		(60,000)
Totals					\$ 182,579	\$	249,618

Contracts receivable from a developer consists of one contract for the extension of a sewer line to service a development in Richland Township. At March 31, 2012 and 2011, the receivable is due as connections are made at the rate of \$600 per connection. The developer's obligation for repayment of this receivable is limited to new connections on the property.

Contracts receivable from connection fees represent amounts due from individuals and businesses for their initial connection to the sewer system. The amounts are receivable over a contractual term, usually requiring annual payments over 10 years from the date of connection, plus interest at 5% per annum on the unpaid balance and are secured by a lien on the premises. As of 2009, the Authority no longer accepts connection fee contracts.

The Authority evaluates the collectability of contracts receivable from developers and connection fees annually. Contracts are secured by mechanics liens on the properties and management believes the amounts receivable will be realized through repayment or through the collateral. No allowance for doubtful accounts has been made in the accompanying financial statements.

Contracts receivable from municipalities represent contractual amounts that are secured by special assessment rolls. Under the contracts, collection of special assessment rolls is made by the appropriate municipality and transferred to the Authority. The collections represent charges to the municipalities' residents and businesses for connection to the sewer system. The fees are paid annually at terms ranging from 10 years to 20 years, plus interest at 1% over the Authority's cost of funds on the unpaid balance. At March 31, 2012, two townships and one village accounted for 100% of the contract receivables. The individual residents and businesses are legally responsible for payment of the fees. This disperses the credit risk over the premises in the geographic area. The assessments become priority liens on each assessed premises. Additionally, unpaid portions of assessments due become tax liens due and payable in the same manner as property taxes.

NOTE D - Restricted Assets

Cash and investments at March 31 are restricted for the following purposes:

	2	012	2011	
Contractually restricted for payment on Sherman	<u> </u>

NOTE F - Long-term Debt

The following is a summary of debt transactions of the Authority for the years ended March 31, 2012 and 2011:

Debt payable, April 1, 2010	\$ 430,874
Debt retired	(118,000)
DEBT PAYABLE, MARCH 31, 2011	312,874
Debt retired	(107,374)
DEBT PAYABLE, MARCH 31, 2012	\$ 205,500

The contract debt payable at March 31 consists of the following issues:

	2012	2011
\$471,469 Township of Ross (Sherman Lake Sewer Project) Installment Purchase Agreement dated June 7, 2007, due in annual principal installments through 2016, plus interest payable annually on June 7 at 4.20%.	\$ 75,000	\$ 135,000
\$265,000 Prairieville Township (Little Long Lake) General Obligation Limited Tax Bonds dated December 27, 2002, due in annual principal installments through June 1, 2013, plus interest payable semi-annually on June 1 and December 1 of each year at 4.00% to 4.15%.	15,500	40,874
\$368,000 Township of Ross (Gull Island) General Obligation Limited Tax Bonds dated October 19, 2004, due in annual principal installments of \$11,000 in 2015 and \$26,000,thereafter, through April 1, 2018, plus interest payable semi-annually		
on April 1 and October 1 of each year at 4.75%.	115,000	 137,000
	205,500	312,874
Less current maturities	 (20,000)	 (1,000)
Totals	\$ 185,500	\$ 311,874

NOTE F - Long-term Debt (Continued)

The annual minimum debt service requirements, including interest for long-term debt outstanding as of March 31, 2012 are as follows:

Years Ending March 31,	<u>P</u>	rincipal	 nterest	Totals		
2013	\$	20,000	\$ 9,839	\$ 29,839		
2014		35,500	8,094	43,594		
2015		26,000	6,671	32,671		
2016		41,000	5,163	46,163		
2017		31,000	3,298	34,298		
2018-2023		52,000	 2,471	 54,471		
Totals	\$	205,500	\$ 35,536	\$ 241,036		

For the years ended March 31, 2012 and 2011, the Authority incurred interest costs of \$13,256 and \$14,679, respectively. The Authority did not capitalize any interest charges during the years ended March 31, 2012 and 2011.

NOTE G - Retirement Plan

The Authority has a defined contribution retirement plan established under Section 401(a) of the Internal Revenue Code. The Gull Lake Sewer and Water Authority Group Pension Plan covers all eligible employees. The Authority has the right to amend or terminate the Plan at any time. Contributions by the employer are fixed at the discretion of the Authority and individual accounts are maintained for each participant. Employees may contribute pre-tax contributions ranging from 2% to 10% of eligible wages. Employer contributions for the years ended March 31, 2012 and 2011 were approximately 10.0% and 8.0%, respectively, of covered payroll. Total retirement expense was \$19,335 and \$16,380 in 2012 and 2011, respectively.

NOTE H - Look Back Treatment Charges

Treatment charges billing rates are set by the City of Kalamazoo based on their anticipated annual costs over anticipated treatment flow. After actual costs and treatment flows are compiled, the City adjusts the Authorities treatment charge rate and bills the Authority for past treatment flows for the difference between the estimated and actual rate. In fiscal 2012, the Authority received a "look back" treatment credit for 2010 of \$7,549. In fiscal 2011, the Authority received a "look back" treatment charge billing for 2009 of \$12,859. While the amount of the treatment rate adjustment can not be predicted, management does not anticipate significant adjustments in future years.

NOTE I - Commitments and Contingencies

The Authority, in the normal operation of its activities, has exposure for damage to residential and commercial property and personal injury resulting from the operation or construction of its sewer system. The Authority's Board has elected to self-insure against this risk. The Authority's board believes that funds accumulated and designated for significant replacements, as disclosed in Note D, are adequate to cover the associated risk.

On occasion, the Authority works with municipalities and developers for potential utility projects. Should the Authority determine that it is in the best interest of the current and future users of the system, capital improvement funds may be invested in these projects.

NOTE J - Subsequent Events

Management has evaluated subsequent events through September 5, 2012, the date on which the financial statements were available to be issued.

Gull Lake Sewer and Water Authority Schedule of Operating Expenses Compared to Budget For the Year Ended March 31, 2012 (Comparative Actual Amounts for the Year Ended March 31, 2011)

September 5, 2012

To the Board of Supervisors and General Manager of Gull Lake Sewer & Water Authority

In planning and performing our audit of the financial statements Gull Lake Sewer & Water Authority for the year ended March 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered Gull Lake Sewer & Water Authority's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Authority's internal control to be a significant deficiency:

Separation of duties

eber Tans, PLC

Due to the small size of the Authority's office staff (three personnel), separation of duties is limited. The Administrative Assistant has access to assets, records the asset transactions in the accounting system, and reconciles the accounting records. As a result, the risk of loss, error, or irregularities increases. We recommend that the Authority Supervisors review key financial reports and reconciliations periodically for unusual matters. In addition, fidelity bonding of all personnel with access to accounting records and assets of the Authority should be considered. This is a repeat finding from the prior year.

This communication is intended solely for the information and use of the Board of Supervisors and Management of Gull Lake Sewer & Water Authority, and is not intended to be and should not be used by anyone other than these specified parties.

Seber Tans, PLC September 5, 2012
