## Solving Business Performance Needs with Artificial Intelligence

Leverage AI to optimize performance – streamline operations, enhance productivity via process automation, enable data-driven decisions through predictive analytics and intelligent insights.

## We Deliver Thought Leadership in Tech Through Conferences & Events

Our conferences and events bring together industry professionals, diverse stakeholders, and businesses to share visionary ideas, explore emerging technologies, and provide insights from the world of emerging technology into your hands. We do so with small and large groups.

## Creating Career Pathways for STEM Professionals from Cradle to Career

We collaborate with non-profits, workforce development organizations, schools, and community groups to develop exciting and creative STEM-based programs that educate and entertain, exposing participants to tech career pathways.

### STEAM Career Exploration

### E-Gaming / Design, Coding, & STEM-Based Sports

## Emerging Technology Workforce Software Solution Offerings

- Victory XR Virtual Reality (VR) and Augmented Reality (AR) solutions for immersive learning from middle school to college to professional industry groups.
- NextWave VR Workforce development and training for industries like construction, public safety, and healthcare
- Skillssoft's cutting-edge learning management system and extensive content library for certification preparation with over 100,000 courses
- Artificial Intelligence solutions tailored to business needs, including outbound calling, data gathering, marketing tools, process streamlining, and efficiency enhancements.

## Creating Pathways for One Million BIPOC & Women Emerging Tech Professionals

We aim to revolutionize the tech landscape by fostering innovation, diversity, and creativity.

We achieve this by leveraging the power of workforce development, enhancing STEM education outcomes, and supporting businesses, helping them to adopt emerging tech tools into their infrastructure for operational success.
