Dear Sir or Madam,

We are the junior high school robotics team from Saint Anthony Catholic School in Fort Lauderdale, Florida. We call ourselves, “Robocanes”!

We have the amazing opportunity to compete in the *FIRST* Tech Challenge (FTC). FTC is a STEM based robotics program designed for students in grades 7-12 who are challenged to design, build, and program robots to compete in a head-to-head challenge in an alliance format, while realizing the value of hard work, innovation, and work as a team.

Our hope is that with your support we can build a strong foundation and legacy for future robotics teams here at Saint Anthony. Consider a financial sponsorship, this could help us with building materials, robot components, team t-shirts, tools for building, resources for coding, travel, and other expenses that allow us to be a competitive participant in the FTC.

Your contribution will also help us build our community outreach program as we develop a way to encourage others to explore the world of STEM and share how exciting it is! Our goal with this program is to build growth in numbers on the Saint Anthony Robocanes team and promote STEM education outside of our school walls.

We hope this introduction has taught you about our team, shown you how passionate we are about *FIRST* and how you can help cheer us on! It would mean a lot to us if you would choose to sponsor us!

If you have further questions, please reach out to coach Daniela Jahnes at [d.jahnes@stanthonyftl.org](mailto:d.jahnes@stanthonyftl.org) . Thank you for your time and consideration.

Very Respectfully,

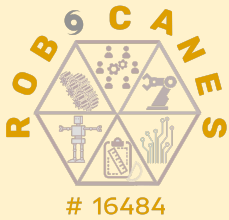

***Saint Anthony Catholic School Robocanes***
