Job Sharing Protocol

If you are having someone else care for your pet(s) at the same time you've contracted Rene's Professional Pet Sitting, LLC, we need the contact information including: the full name of the additional helper, complete mailing address of the additional helper, and a working phone number for the additional helper. This information is required for insurance purposes and so we can contact them if we have any questions about their visits. Failure to provide this required information can result in us ending services immediately. Furthermore, Rene's Professional Pet Sitting, LLC is waived from any and all pet injury or household problems if additional helper fails to provide information we need from them. We must be informed of any additional helpers before time of service and required form must be completed and signed before the initial visit. In addition to disclosing additional helper information, the additional helper must fill out the visitor log form provided by Rene's Professional Pet Sitting, LLC at each visit they provide. This is crucial if medication is being given.

I have read, understand, and agree to the policies listed above regarding the Job Share Protocol and visitor log.
