MODERNIZE YOUR HOME WITH CORNER SOFA DECORATION IDEAS

Corner sofa, or known as L sofa, is recently among the most popular sofa sets in home decorations thanks to its modern designs, functionalities and other positive aspects.

Being the most important furniture in living rooms and sitting rooms, sofa sets are required to offer the comfort you need much, as the most important feature sought.

In addition, it is important that a sofa should perfectly align and blend with decoration of your home. Living spaces has been ever getting smaller in the recent years, which further increased need for the corner sofa, but also paved way for a whole new range of different tastes and demands.

In this context, corner sofa became a perfect candidate which caters for many types of room, notably small and space-restricted rooms. Once positioned correctly and supported with various complementary items, corner sofas, surely, will enable you to create the atmosphere of your dreams in your home.

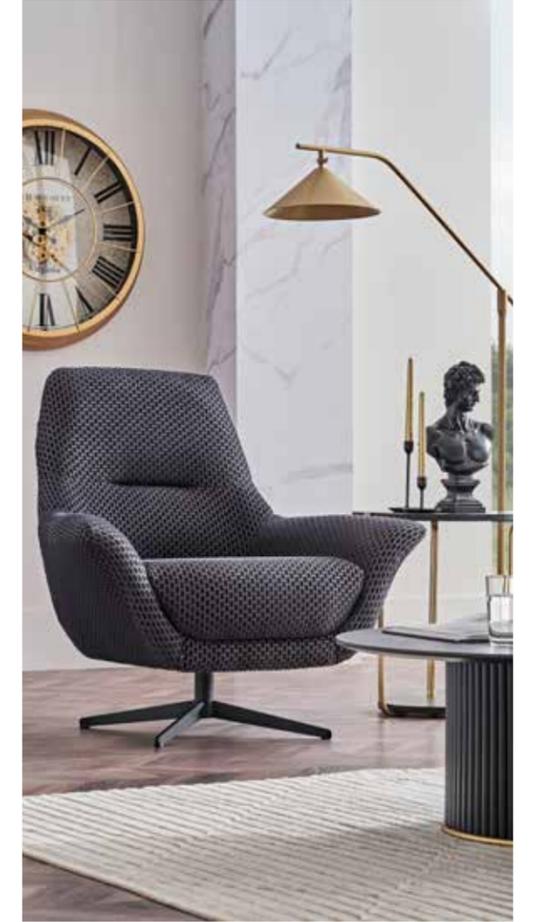

Nevertheless, while buying a corner sofa, it is important to define the needs aptly, decide on the corner set that best suits to the room size and dominant decoration style. Let's stop here and look at together the corner sofas and decoration suggestions of Doğtaş which may inspire you while decorating your room.

Classy

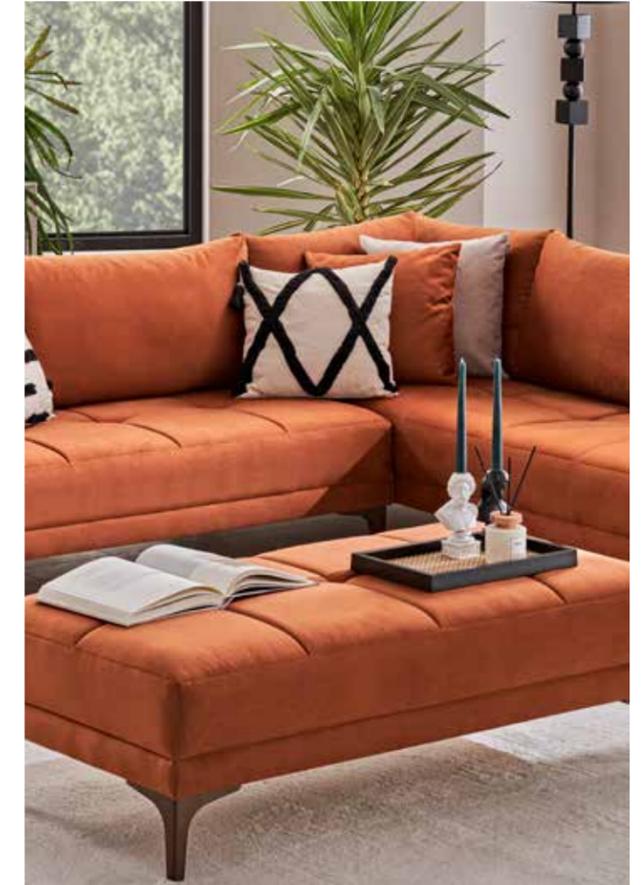

COMPLEMENTARY

Wing Chairs

Wing Chairs welcome us as one of the main items of living room and sitting room decoration. Not only a comfort center but also a decorative enhancer, wing chairs are designed in different styles, and offered to the taste of furniture users. The architect of the comfort and elegance in your home, Doğtaş produced its wing chair range to reflect your design taste around your home, and combine them with corner sets as you wish.

Elegant and DECORATIVE Throw Pillows

Another decor suggestion that you may consider for corner sofa decoration is the throw pillows that perfectly match and blend with style of your sofa. If your corner sofa is mono-color, you can choose a throw pillow in colors that will be in contrast with the color of the sofa. For example, you can choose patterned throw pillows to create more energetic ambient for light color sofas such as beige, cream or powder. On the other hand, a better look will be created with more light color and if possible mono-color decorative throw pillows for red, navy blue, green, etc. color corner sofas.

Modern and **ELEGANT** ottomans

Being the most basic complements of the interior design, ottomans were mainly chosen for vanity tables in the past, which changed in the recent years finding its functional use in living rooms and sitting rooms. However quite comfortable, corner sofas may suffer from the lack of seating space, in which case ottomans may come handy as a rescuer to fill the gap in comfort you sought in your home.

You can use the ottomans which will blend with style of your corner sofa as a support furniture to stretch your leg and have chill, or as a coffee table for your tea or coffee. In addition, you can use as a module of the sofa corners - today's popular decoration item - and create a transition between other modules of the sofa corners. You can look at the colorful and comfort-packed ottomans of Doğtaş for elegant and decorative ottoman options.
