# THE STORY

# 03 PROPHETIC PAPER

The fourth great Ninja war lasted from October 8th to October 10th back in the years when Ninjutsu was used as a way of protection. There were men called Shinobi's who were aware of a natural energy called Chakra. They harnessed Chakra in order to defend, attack, and gather intel.

Over the years the idea of Chakra changed many times, but today we have learned to harness this natural energy into crypto as a way to buy, sell, and trade cards dedicated to the same Shinobi's of the Great Ninja War. We are paying homage to the greatest Shinobi of them all, Naruto Uzumaki.

PROPHECY  
PAPER

Now, this has been tried before. A man named Madara attempted to make a crypto inspired by the great Shinobi Naruto Uzumaki. He created a barebone draft then disappeared, leaving the Hidden Leaf Village with a crypto; but absolutely NO chakra forged within these coins. He disrespected the great name of Naruto.

It wasn't until 5 people from the Hidden Leaf came together and made what we know today as Uzumaki Inu: The Prophecy Token. This village will have Naruto inspired artwork, giveaways, an NFT game, an awesome community, and Shinobi inspired trading cards that will LITERALLY create their own value.

Obviously every community needs leaders, but here at Uzumaki Inu we have a real democracy. The community makes the worth of the coin. By spreading the word and getting people to join us, we can create a constant influx of people. Word of mouth is a powerful weapon.

We as the leaders will be in charge of the bigger advertising such as paying youtubers for videos, giveaways, admissions for listings, official NFT partnerships, and creating the eventual marketplace/game. These will all be funded through donations from the community, the marketing wallet, and even our own money from time to time because we believe in this projects Chakra.

# 06 PROPHECY PAPER

Our goal of Uzumaki Inu is to give people a way to show their love of Naruto through crypto. With the rise in anime inu coins, the Naruto series is the perfect add to the mix.

Our hope is that one day our NFT marketplace will be filled with artists able to get recognition for their awesome artwork. There are so many different ways to draw each of the Naruto characters and it takes A LOT of talent to do so. So we want to give the community a place where they can make money for their remakes of the great Shinobi.
