

For LEARNING SPANISH >WORKSHOPS FOR STUDENTS

1. **3+1** SMART KEYS FOR MORE EFFECTIVE LANGUAGE LEARNING

This workshop introduces 3+1 brain-friendly language learning principles that make language learning simpler, and more productive and enjoyable. During the session, we will explore these questions:

- What is motivating you to learn Spanish?
- What kind of language input is best for you?
- What is one of the best ways to develop your four skills (speaking, listening, writing, and reading)?
- What key aspects of the language do you need to develop to become a competent and confident speaker of the language?

2. HOW TO GET NEW VOCABULARY TO “STICK” IN YOUR MIND

This workshop presents brain-friendly language learning principles and strategies that will facilitate your memorisation and use of new vocabulary. We will explore:

- The important role of your emotions in language learning
- The most important principles for effective vocabulary learning
- An action step sequence that helps new vocabulary to “stick” in your mind
- Specific strategies and resources to help you learn vocabulary

3. FLASHCARDS: ONE STEP AT A TIME SUCCESSFUL LANGUAGE LEARNING

The aim of the workshop is to explore how designing and using flashcards will help you to resolve many of the lexical and grammatical challenges that you face when learning Spanish or any other foreign language. They will also help you improve your self-confidence as a learner.

We will explore these questions.

- What makes flashcards so effective?
- What are the brain-friendly design principles you need to apply to make the cards work well you?
- How and when is it best to use them?
- What feedback do students give after using flashcards for learning Spanish?
