In the workshop, we talk about key LLS that enable students to develop speaking skills effectively and with enjoyment. We discuss:

- What difficulties do students experience with speaking skills?
- What key strategies help them to develop excellent fluency and accuracy?
- How can we teach these key strategies?

And we look at feedback given by students after receiving LLS training.

Workshop 3. ACHIEVING MORE SUCCESS WITH REVISION CARDS

We explore how revision cards help our students to resolve the lexical and grammatical challenges they experience when learning a foreign language. We discuss:

- What has research found about revision cards?
- How can we design effective revision cards?
- How can we teach how to use them in our courses?

We also look at examples of cards made by students of Spanish and feedback given by students on studying with revision cards.
