Authorized Distributor of CFA healthcare

ActivePure Technology is the safest and fastest-acting air purification continuous solution that minimizes recontamination and cross contamination in real time on surfaces and in the air. Units are portable and cover up to 3000sf.

ActivePure Technology confirms that the product kills the SARS-CoV-2 virus on surfaces. The testing data conducted by independent Food and Drug Administration-compliant laboratory, MRIGlobal, established a 99.98% surface kill rate of live SARS-CoV-2 virus in seven hours. SARS-CoV-2 is the virus that causes COVID-19.

ActivePure Technology protects thousands of students across the U.S and has been sold to over 200+ schools this year.
