

**Banol**<sup>®</sup>

# Banol First

**Cool Season Sheet  
Program // April 1 - June 30**

## Get Ready for Pythium Root Rot and Save!!

Now is the time to start controlling Pythium root rot (PRR) to promote root health and limit summer damage that can impact the golfing experience. Increased traffic stress from last year coupled with excessively wet weather this spring in parts of the country means it's critical to get ahead of this devastating disease with a preventative fungicide strategy.

*An exclusive offer for MyBayerRewards Members*

Save \$200\* per case when you purchase full cases of Banol Fungicide (2 x 2.5 gal) in the months of April through June\*\*.

### Preventative Fungicide Programs

- // Begin when 2" soil temperatures average 60°F for five consecutive days (critical to manage fungi populations early)
- // Start with applications on 3-4 week intervals (be sure to water-in) until summer heat starts. As summer heat sets in, move to 14-day intervals and water to move fungicides to the depth of rooting
- // Rotating modes of action is critical to limit the chance of resistance and to maximize control over the wide range of Pythium species

### Fungicide Solutions

- // Start with Spring applications of Banol<sup>®</sup> at 2-3 fl. oz./1000 fl. oz. (Banol First Program)
- // Subsequent rotational applications should include Signature<sup>™</sup> XTRA Stressgard<sup>®</sup> alone or in combination with Banol for Pythium control and to maximize plant health and turf quality
- // Many QoI fungicides (FRAC Code 11) are also effective rotational partners with Banol

Symptoms of Pythium root rot in the compacted clean-up lap of a creeping bentgrass green. (Bayer)

*For more information on managing PRR visit [es.bayer.us/talking-turf](https://es.bayer.us/talking-turf)*

\*\$200 savings will be paid as 20,000 MyBayerRewards (MBR) points per five (5) gallons of Banol which can be redeemed as a company check or Distributor credit. \*\* Products must be invoiced between April 1, 2021 and June 30, 2021 by an authorized Bayer agent.
