### Straight Bentgrasses

- Piranha Creeping Bentgrass
- Musket Colonial Bentgrass
- Barracuda Creeping Bentgrass

**History**

In 1946, Pratum, Oregon farmers founded a Co-Op to grow prime Willamette Valley grass seed. 75 years later, Pratum Co-Op's grain elevator is a landmark, and Mountain View Seeds varieties reap the benefits of that outstanding farmer network. MVS was created in 1998 to manage mounting seed demand for Pratum's private variety production.

Varieties and percentages are subject to availability and could change at any time.  
Percentages are rounded off. There is always a % of inert in seed mixes.

SRO = Seed Research of Oregon
