

# Metro Spotlight

## End of Summer 2020

Bayer

### NOW Solutions Program

Running: August 1 - September 30, 2020

- Banol (2.5 gal)
- Chipco Signature (44 lb cs)
- Interface Stressgard (2.5 gal)
- Mirage Stressgard (2.5 gal)
- Signature XTRA Stressgard (5.5 lb)
- Specticle FLO (1 gal)
- Specticle G (50 lb bag)
- Indemnify (17.1 oz) **NFS NY**

Great offering by Bayer to help the COVID-19 Cause!

### Fiata Stressgard

The feedback about Fiata Stressgard on fairways has been incredible! It has been an integral tool helping to protect fairway turf during the hot stressful summer.

### Ocean Organics

### EARLY Early Order Program

Running: August 17 - September 30, 2020

Great products to use now, for Turf Recovery!

Metro is excited to announce we are offering an in-house special to our end users for the Ocean Organics line! We have decided to start the winter Ocean Organics' EOP Rebate in August this year, to alleviate some of the added pressure from dealing with an intense season.

**ALL PRODUCTS ARE INCLUDED IN THE 2020-2021 EOP!**

But...our spotlight is on:

- SeaBlend Super Starter
- Stress Rx
- Windjammer **NEW**
- Guarantee Natural
- XP Extra Protection
- Mariner

# PBI-Gordon

Product	Sizes	Active Ingredients	Restrictions	Notes
Union Fungicide SC	2 x 2.5 gal cs	Segway/Azoxystrobin	None	Two great active ingredients in one strong product.
Vexis Herbicide Granular	2 lb can 6 x 2 lb can cs	Proprietary New AI! Pyrimisulfam	NFS NY	Exceptional control of Sedge, Kyllinga and some Broadleaf weeds.

# Nufarm

Product	Sizes	Active Ingredients	Restrictions	Notes
Anuew	4 x 4 x 1.5 lb resealable pouch cs	Prohexadione Calcium	None	Proven plant growth regulator, saving superintendents time with less mowing and fewer clippings while improving the overall playability through improved turfgrass quality, density and appearance. Anuew is more active and longer lasting than other late-stage growth regulators on cool-season turf, providing more regulation activity at lower doses. It is also the only PGR that can evenly regulate Poa in mixed stands.
Cheetah Pro	2 x 2.5 gal cs 4 x 1 gal cs	Glufosinate Ammonium (HRAC 10)	NFS LI	Non-selective, post-emergence herbicide provides fast, effective control of the toughest broadleaf and grassy weed challenges, including those resistant to glyphosate and multiple herbicide classes.
Pinpoint	4 x 60 fl oz cs	Mandestrobin (FRAC 11)	Restricted NY NFS LI	New fungicide active ingredient designed for outstanding dollar spot control. Pinpoint is an excellent fungicide program rotation partner to help manage and mitigate dollar spot resistance from SDHI, DMI, benzimidazole and dicarboximide
Quincept	2 x 2.5 gal cs	2,4-D (13.24%) Quinclorac (8.25%) Dicamba (1.38%) (HRAC 4)	Restricted NY Spot Treatment Only in NY	Broad spectrum control for over 200 broadleaf weeds, crabgrass, foxtail, and barnyardgrass.

# Mountain View Seeds
