

Pink Flamingos Infesting Local Yards!

There is a growing infestation of Pink Flamingos and our Youth Group is leading the charge to help you with these pesky, pink birds (and also help raise funds for their upcoming Sierra Service Project (SSP) trip, too).

REMOVAL (\$30 suggested donation)

If you find a bird on your lawn, the Youth Group will remove it for you!

FORWARDING (\$30 suggested donation)

If you have a bird on your yard and would like it moved to a friend's yard, the Youth Group will move it for you!

INSURANCE (\$20 suggested donation)

Don't want flamingos on your yard, but still want to support the Youth Group?
You can purchase insurance so no birds land on your yard at all!

Do you want these flamingos to land on someone's yard? Sign up sheets will be in the Narthex after service and in the office during the week - sign up today!

What is the Sierra Service Project (SSP)?

Sierra Service Project (SSP) is a non-profit organization providing life changing experiences through acts of service repairing Native American homes. Each summer, over 2,000 volunteers live, worship and work together on different project sites. Together, their work results in over 100 safer, drier and more comfortable homes. CHUMC will be sending 8 youth to participate this summer. Funds are needed to rent vans, pay for gas, travel expenses and lodging on the way to and from the reservation. Every dollar from this fundraiser is a great help and we are grateful for your support of our mission work on behalf of CHUMC.
