

Saving One Heart at a Time

♥FOZZIE BEAR♥

Meet Fozzie Bear, this precious wiry little nugget came to us from one of the seven shelters we help. When he came to us, he was heartworm positive. With the heartworm treatment plan we have in place, Fozzie Bear was adopted and treated for heartworms. Now he is living the dream in his new home heartworm free. Thanks to all our donors for making this program possible.

FOTABR provided pre- and post-treatment medication, transportation to and from our vet, plus experienced support for Fozzie Bear and his family. His new family did their part by providing a loving home, crate rest and restricted activity during 60 days of treatment.

Last year, **we provided heartworm treatment for 81 pups** at no cost to their new families. Like Fozzie Bear, those 81 dogs each got a chance for a healthy life in a loving home. Our hope is to continue treating every dog adopted at our FOTABR Adoption House. **The total cost for treatment in 2024 was over \$29,000.** Unfortunately, that exceeded the grants from foundations and charitable organizations we received.

We are asking for YOUR financial support to ensure that we can continue this important medical treatment program that is “Saving One Heart at a Time.”

Our adopters love their new furry family members with ALL of their hearts. Your contribution will allow their pups to love them back with ALL of their hearts! Please consider making a tax-deductible donation from your heart to continue this worthwhile program.

FOTABR began in January of 2010 as a non-profit 501(c)(3). The dogs taken into FOTA are from local shelters. We found homes for over 7,500 dogs since our founding, and our goal is to get at least 350 more pups adopted this year. Heartworm treatment is an important part of our mission. Our dogs need your help! Approximately 25% of the dogs adopted through our program are heartworm positive. FOTABR is committed to not only finding loving forever homes for every dog, but also paying for the heartworm treatment needed for each dog to lead a healthy, heartworm-free life.

If you would like to contribute to our lifesaving efforts during this “Saving One Heart at a Time” campaign, it’s easy! Donate by check to the address listed below, with Venmo at @FOTA_BR, or give online at: <https://fotabr.org/donate>.

Only with gifts from generous supporters like you are we able to treat heartworm positive dogs like handsome Fozzie Bear.

From our heart to yours—thank you!
