ECO-FRIENDLY PRODUCTS

As a company, we have a responsibility to be good stewards of the natural resources we consume, to be protective of the environment at all points throughout our supply chain, and to have a positive impact on the communities in which we operate. We believe that this responsibility extends to all associates who work with us.

Through our sustainability efforts we now offer a complete line of products that are both eco-friendly and high quality while maintaining our competitive pricing. Martex® Green was developed using environmentally friendly fibers with certified sustainable processing techniques to create linens that require less water, energy and fewer chemicals to maintain while in use. These fabrics feature the revolutionarily Dryfast® technology which provides an incredible performance impact on any cotton or cotton-blended fabric by reducing drying times and significantly increasing stain resistance. These fabrics are engineered to perform at the highest standards, and to extend their useful life with no compromise in the quality of the guest experience.

Martex® Green T-250 Sheets

Martex® Green Sheets is the newly developed and earth-friendly collection that utilizes environmentally friendly fibers along with certified sustainable processing techniques. Made from an organic cotton and recycled polyester blend, these exceptionally soft and crisp sheets use less water, energy and fewer chemicals all while reducing drying times.
