

Philip Gauthier

Financial Modeling & Valuation Analyst

Career Objective

Having recently completed the Financial Modeling & Business Valuation Certification, I hope to continue to learn through continuing education and hands on experience. I am confident I can augment the finance department by leveraging advanced skills in Excel for 3-statement modeling, budgeting & forecasting, and valuation techniques.

Experience

Land Acquisition & Development Excel Model (2023)

- Comparative Analysis of vacant land plots to measure price per acre in different geographical locations.
- Dynamically linked cost and profit forecast for potential Airbnb development.
- A Land acquisition & building cost estimate with a sensitivity analysis.

Victoria Custom Cabinets (2020-2022)

- Custom millwork, cabinets, and countertops
- Prepping, mixing, and custom painting

MIT Global Founders Skills Accelerator Alumni (2016 - 2017)

- Sponsored by the Sloan School of Management at MIT in Boston to work in the Martin Trust Centre for Entrepreneurship.
- Intensive experience in primary market research, customer persona profiling, product/market fit, mechanical engineering design, and machine shop operation.

Education

Corporate Finance Institute (2022 - 2023)

- Building 3-statement models, discounted cashflow models.
- Valuation using comparative, precedent, and DCF modeling.
- Presentation with charts & graphs and PowerPoint.

University of Victoria (2014-2016)

- Courses in computer science & software development
- Courses in Calculus, Sciences & Engineering

Skills

- Advanced Excel
- Salesforce CRM
- High Stress environments
- Quantitative Analysis
