Tournament Series Scoring:

Coaches will receive points for each tournament they attend based on the following:

All participants receive 1 point per tournament attended, regardless of their results

In a tournament with ten coaches or more, the top ten finishers will receive points based on their final position. A 1st place finish will be worth 10 points, a 2nd place finish will be worth 9 points on down to a 10th place finish being worth 1 point.

Should there be fewer than 10 coaches, the top coach's score would be equal to the total number of participants and the rest would decrease as usual.

As a bonus, each finisher gets +1 point per 10 attendees at the event beyond the 1st 10 (Example: in a 32 coach tournament participants would gain an additional 2 points)

Organizer bonus: For organizers who do not play in their tournament, they will receive 1 point +1 per 10 (rounded down, minimum of 1) coaches in the tournament.

Coaches will gain 1 additional point for winning an award during an event. These would be for Most Touchdowns Scored, Most Casualties Dealt, and for Best Painted. For purposes of calculating these bonus points, we would not use the 'share the wealth' system (even if that system is used to give out the actual awards).

Overall Ranking

Coaches will be awarded points based on their performance in each IABBCC event that they participate in. Only the Top 4 tournament points total of each player will be tallied for the purpose of awards.

There is no minimum number of tournaments that a participating coach must attend, however in order to receive an award, the Coach must be a member of the NAF.

Tiebreakers:

Tiebreakers for any award are in the following order:

1. Most First Place Finishes
2. The Coach who used the most different races during the series
3. The tied coach's head to head record in the seasons IABBCC matches
4. Overall cumulative score for the season (counts all events)
5. Most event attended for the year
6. Tournament Series Organizers Discretion
