## Benefits of RTM

- Reduces risk of hospitalization.
- Collects "Response-to-Therapy" data.
- Provides accurate and reliable visibility into medication adherence.
- Generates revenue through billable activity.

## Summary

RxKeeper® is a solution to tackle the costliest health problem in America: Medication Adherence. Our automated workflows will reduce the cost, time, and labor burden for your medical, clinical, and admin staff.

## Product Features

- Easy-to-use. Intuitive. Senior-friendly.
- No Smartphone App required.
- Registered FDA Class 1 Medical Device.
- Cellular connectivity. Real-time tracking.
- Portable, sturdy container with secure lock, large clock, and audible flashing alarms.
- Care Team monitors their patients.
- World's First battery-operated, Cellular-enabled Medication Adherence Device that collects "Response-to-Therapy" data.

## Solution

**RxKeeper®** is an affordable medication adherence solution – Medication nonadherence in patients can lead to substantial worsening of disease, death, and increased healthcare costs.

### Worsens Opioid Crisis

Delayed outcomes + lack of monitoring → misuse, dependency, addiction spiral.

### Clinicians have a Blind Spot

No real-time data → no visibility into patient behavior and no timely intervention

## Medication Adherence System for a Medicare RTM Program
