

HIMC GmbH ENGINEERING ENERGY INDEPENDENCE

Austrian Engineering for Autonomous Energy Systems
Together with our Ukrainian Subsidiary – Building the Energy
Infrastructure of Tomorrow

Engineering Resilient Energy Systems for Ukraine

The reconstruction of Ukraine offers a unique opportunity to build a new generation of decentralized, intelligent and resilient energy infrastructure. HIMC GmbH, headquartered in Austria and supported by its Ukrainian subsidiary **НІМС Україна**, develops integrated autonomous energy systems that combine Austrian engineering excellence with local implementation expertise. Our engineering solutions provide secure electricity and heat for municipalities, hospitals, industrial facilities, agricultural enterprises and critical infrastructure—even under challenging operating conditions.

Our Integrated Engineering Platform

HIMC designs complete energy systems combining:

Biomass Combined Heat & Power (CHP), Solar Photovoltaics (PV), Wind Energy, Battery Energy Storage Systems (BESS), Thermal Energy Storage (TES), Energy Management Systems (EMS), Autonomous Microgrids, District Heating Networks, AI-supported Energy Optimization, One integrated platform and One intelligent engineering solution.

Why HIMC?

Austrian Engineering Excellence

Integrated system engineering, Technology-neutral solutions, Modular and scalable design, Digital energy management, Long-term lifecycle optimization, Integrated system engineering Technology-neutral solutions, Modular and scalable design, Digital energy management and Long-term lifecycle optimization

Local Presence in Ukraine

Through **HIMC Україна**, we support: Project development, Local engineering, Municipal cooperation, Industrial implementation, Technical coordination and Long-term operational support

International Project Development

Together with Austrian technology partners, HIMC develops bankable infrastructure projects supported by international financing programs, including:

- European Union
- European Bank for Reconstruction and Development (EBRD)
- European Investment Bank (EIB)
- World Bank Group
- International Finance Corporation (IFC)
- Austria Wirtschaftsservice (aws)
- Oesterreichische Kontrollbank (OeKB)
