This Puppy/Dog is a purebred AKC English Golden Retriever.

Buyer is required to have a licensed vet administer two more parvo/distemper vaccines to puppy. Parvo/distemper vaccines must be given at two – three week intervals following first vaccine given by breeder. Do not put the puppy on public grounds until third parvo/distemper shot has been given to puppy.

Breeder/Seller guarantees this puppy/dog for 3 days from when the Purchaser takes possession of this puppy/dog to be in good health. Buyer agrees that during the 3 time-period to have said Puppy/dog examined by a licensed veterinarian. Should Buyer fail to have this puppy/dog checked by a licensed Veterinarian within the 3 time frame this health guarantee is void. This guarantee expires 3 days after Buyer takes possession of the Puppy/Dog.

Buyer is required to feed Blue Buffalo Chicken and Brown Rice Puppy food for the first year. If buyer chooses not to use this dog food, this contract will be void.

Buyer shall maintain the puppy in good condition, including adherence to a regular immunization schedule, heartworm prevention, good diet and a clean and safe environment. All puppies must be supervised during exercise for twisting and jumping movements. No jumping on or off the furniture! This will null the health guarantee. If said puppy/dog is to be found in an untreatable health condition, buyer is to get a written statement from two (2) licensed Veterinarian's. Buyer then will have two options:

1: To keep said puppy/dog assuming all costs for its care.

2: Return said puppy/dog and pick a puppy out of the next litter, of equal or less value only upon the Breeder/Sellers receipt of the Veterinarians written statement regarding proof of the health of said puppy/dog within said time -period. The time-period is 3 days from the time the Purchaser receives said puppy/dog in their possession.

Genetic Health Guarantee: Breeder/Seller guarantees said puppy/dog up to 12 months of age (12 months from the birth date of said puppy/dog) for terminal genetic health defects which will take the puppy's life.

Breeder/Seller agrees to replace said puppy/dog with a puppy/dog of equal or less value within 12-month time frame (this 12-month time frame is to give Breeder/Seller adequate time for new litters to arrive). A written and signed statement is to be obtained from two Licensed Veterinarian's from two different clinics as proof of the Genetic Defect(s) and sent directly to the Breeder/Seller.

Buyer may then do one of the following:

A: Buyer may keep the puppy/dog with a refund of half of the purchase price of said puppy/dog.

B: Return said puppy/dog to Breeder/Seller at the Buyers expense, for a replacement puppy/dog of equal value at the Breeder/Sellers discretion. Breeder/Seller at this point reserves the right to have a third opinion on the diagnosis from the Veterinarian of Breeder/Sellers choice. At this-time the Buyer will sign all registration papers over to Breeder/Seller.

C: If said puppy/dog must be put down due to these defects, a written statement from two licensed veterinarians from two different clinics must be provided to Breeder/Seller stating that it is medically necessary for puppy/dog to be put down due to these defects. Breeder/Seller will replace said puppy/dog within a 12-month time frame from breeder/seller receives documentation from the licensed veterinarian stating that puppy/dog has been put down. This will give Breeder/Seller adequate time for a future litter to arrive in- order to replace said puppy/dog with a puppy/dog of equal value at Breeder/Sellers discretion. Now buyer will return all Registration papers of said puppy/dog to the Breeder/Seller.

Breeder/Seller makes no guarantees regarding the loss of said puppy/dog in the case of accidental death, theft, sickness due to lack of vaccinations, etc. Any sickness not related to Genetics, or any loss beyond the Breeder/Sellers control except as stated above.
