

# ANSWERS TO YOUR QUESTIONS

Though a swimming pool is a wonderful amenity to have on your property, it can also require a lot of upkeep and maintenance. If your pool is not properly maintained with regular cleaning and proper chemical levels, the pool can become virtually unusable.

At **Green Valley Pool Service & Repair**, our highly qualified technicians know what is required to keep your pool in perfect condition so that you and your guests can enjoy a clean, healthy pool all year long. We can provide regular cleaning and maintenance to fit just about every budget, so that all you have to do is relax and enjoy your beautiful swimming pool.

Included in your service with us, you will receive emailed reports from your service technician listing the services provided during that visit to keep you informed about your pools care.

The emailed report includes the following information:

- Before and after pictures of your pool service visit.
- Verification of our visit and time spent on your service.
- Chemical readings and services provided.
- Equipment check reports.
- Follow-up calls for regular routine maintenance.

When you choose **Green Valley Pool Service & Repair** you're choosing a team of people who love their jobs and enjoy being the best at what they do. Integrity is our core value. We only hire people we feel absolutely comfortable sending to your home or business because character matters all the time. All of our employees go through extensive training and ongoing education. We offer a career path and great benefits in order to attract and maintain a professional staff. We are insured, factory-trained on all major brands, and we participate regularly in ongoing training and education so that we stay on the forefront of new equipment and industry standards. We understand that our reputation precedes us, and that in a service business, great customer service is what it is all about. So... **WHY CHOOSE US?**

## 48 Years of Pool Service
