ESSENTIAL

Best for homeowners who want required maintenance and monitoring. Includes SeptiShield monitoring, maintenance inspections, county reporting, and priority scheduling.

PLUS

Everything in Essential plus one included service call per month, air filter replacement, diffuser stone replacement as needed, float replacement coverage, up to six sprinkler head replacements per year, 15% labor discount on repairs not otherwise covered, and a 10% pumping discount.

PREMIER

Everything in Plus; plus, two included service calls per month, annual chlorination maintenance contract, pumping included as deemed necessary, one covered air compressor replacement every 24 months, one covered effluent pump replacement every 36 months, and a 20% labor discount on repairs not otherwise covered.

* Pumping included once every 3–4 years when determined necessary by JB Septic Maintenance, Inc.

** Eligibility for the next covered air compressor replacement begins 24 months after the previous covered replacement.

*** Eligibility for the next covered effluent pump replacement begins 36 months after the previous covered replacement.
