Speed of Trust™ - Covey says that trust is a measurable economic driver and the #1 competency of leaders. Fortunately, trust is also a learnable leadership skill. Speed of Trust™ has a proven record of helping leaders develop the skills that establish trust on every level, build character and competence, enhancing credibility, and creating leadership that inspires confidence.

The Learner's Group infuses Speed of Trust™ with Engagement, and Diversity & Inclusion in a way that enhances learning and differentiates their workshop facilitation from any other Speed of Trust™ workshop experience.

Other courses in TLG's 2019 Educational Series include:

- *Crucial Conversations*
- *Moving Beyond Unconscious Bias*
- *Engagement (two options):*
 - *Managing for Engagement - for Leaders, or*
 - *Navigating Our Own Engagement - for Associates*

These courses are designed and offered to assist The Farm Credit System in supporting their diversity education efforts. They are also a great way to meet the Farm Credit Administration's expectations.
