Pote's Notes

Isn't it great to be a Shriner, we had a good summer for parades and only 3 more for the year. The Oct. 29th (Independence Halloween Parade) will be an open parade which means, the ladies can ride with their Noble thru the parade.

I think everyone had a great time at CSSA. The Potentate Aids did a great job serving up good food and good drinks.

The Circus is only a little over a month away, it's time to start thinking circus! Hope we have a record turnout.

For all the Nobles and Ladies that ate the meal at the last Temple Meeting you can see how the meat was prepared in the pictures below.

The Head Barbecue King, Jay McClintic put the whole pig on (first picture) about 9pm and watched it all night long and took it off @ 7am (second picture) and after it cooled for several hours it was cut up (third picture) and ready for us to eat and it was good. Way to go Jay!

October Temple Dinner will be provided by Ole Cars. I thought if we provided a free dinner and free beer then we would fill Bennett for Temple Meetings. But the most Nobles that have attended any Temple Meeting has been 87. Come on guys, let's get over 100 before I retire as Potentate, call a friend go pick him up and attend.

INTRODUCING OUR 2022-2023 NATIONAL PATIENT AMBASSADORS:

MEET KATHERINE AND PARKER

Every year, Shriners Children's™ selects National Patient Ambassadors to represent the healthcare system's patients. The ambassadors share their stories of perseverance and the ways Shriners Children's has made a difference in their lives. We are honored to have these impressive young people advocating for our healthcare system.

KATHERINE

Katherine, 19, is a student at Northeastern University in Boston, where she majors in nursing and plays on the Division 1 soccer team. After a devastating car accident in 2019, however, she wasn't sure she'd make it to this point.

The fiery crash left Katherine with third- and fourth-degree burns on her lower left leg and burns on her right calf and thigh. She was taken to a local hospital, then transferred to Shriners Children's Boston. She underwent emergency surgery to save her leg from amputation and was hospitalized for a month. During that time, Katherine had six surgeries and procedures and worked at physical and occupational therapy daily.

A soccer player since she was 3, Katherine had committed to playing at Northeastern University when she was just 15. To help Katherine achieve her athletic goals and get back to playing the sport she loves, Shriners Children's therapists focused on mobility, endurance, strength and range of motion. After transitioning to outpatient care, Katherine has returned for laser surgery three times.

Inspired to give back, Katherine has organized donation drives in her community and is eager to serve as a National Patient Ambassador for the healthcare system. "When everything seems to be going wrong, look for the good things that came out of it," Katherine said. "For me, it was the people I met throughout my journey."

PARKER

Parker was 10 when his life changed forever. In the car on the way to school, Parker's mom, Sharonda, had a seizure and lost consciousness. "When Parker realized something was wrong, he unbuckled his seatbelt and got to the front to take over the wheel," Sharonda said. Her son's courageous action helped steer them away from oncoming traffic before crashing. "He saved our lives."

Among other serious injuries, Parker suffered a badly broken ankle. When he learned that his leg would need to be amputated due to the injury, the athletic youth was devastated.

Three months later and feeling hopeless, Parker became a patient at Shriners Children's Greenville, where a skilled team began working to help Parker get back to participating in the activities he loves. He was fitted with a prosthetic leg designed for comfortable support and lots of physical activity.

Now 13, "Parker is as strong as ever," said Sharonda. "He rides bikes and four-wheelers with his friends. He plays basketball on his middle school team. He perseveres with a positive outlook. Shriners Children's helped break the chains off Parker, and now he's limitless!"

Parker said he is pleased to be a National Patient Ambassador, "because I can give back a small portion to Shriners Children's, which has given me a great deal of my life back."

Modern Circus Collection

Circus collections help underwrite the cost to send 1000's of smiling kids to the circus each year free of charge. We know that collecting on street corners and stores is becoming more difficult – weather, store permission and safety are big factors in redirecting our efforts from the traditional methods.

WE HAVE A SOLUTION! We will create you a *personalized* website link which you can share with friends and families through email, Facebook, and text messaging. We can also provide you with flyers, business cards or posters which have a *personalized* scannable QR-code* on them. These can be left with businesses where customers can quickly and easily scan the code with their smart phone to navigate to the donation page. They can donate securely from their phone, using their credit or debit card.

YOU RECEIVE CREDIT for every donation made using *your* personal link. The technology allows us to track all donations from your link to you and your preferred unit or club.

If you wish to collect with this new modern method, you can scan the below QR Code with your smart phone camera– which will take you directly to a form where you can sign-up to be part of this exciting new program.

Scan this!
- click on "jotform.com" when it appears on your screen

*A "QR Code" – which stands for "quick response" – is basically a barcode on steroids. While a barcode holds information horizontally, the QR code does so both horizontally and vertically. This enables the QR code to hold over a hundred times more information. They are typically created for a specific website, and are scanned with a smart phone camera, to take you to that site.
