

Z-AXIS CITY: DEAL SHEET

Structure: Manager-Managed LLC (Arizona, USA)

Stage: Seed Round | **Ask:** \$4.0M

THE PROBLEM: The 2D City is Obsolete

By 2050, 2 billion more people will inhabit cities. The current two-dimensional urban model offers only two bad choices—sprawl (destroying nature) or isolated towers (alienating residents).

THE SOLUTION: The 3D Urban Fabric

Z-Axis City replaces the "Tower" with the "Network". Our design uses multi-functional sky-bridges to seamlessly blend buildings horizontally at height.

THE VALUE PROPOSITION

By creating elevated streets, parks, and plazas, we effectively **manufacture new land**, turning empty air rights into high-value, transactable street frontage.

THE PRODUCT: The "Z-Axis Code"

We are writing the rulebook for the vertical city. The Z-Axis Code is a proprietary Development Ordinance for the vertical dimension, integrating structure, utilities, and legal property lines into a standardized system.

THE BUSINESS MODEL

We license this framework to governments and master developers, creating a scalable "operating system" for urban density.

THE OFFERING

We are raising **\$4,000,000** in Seed Capital to transform the Z-Axis vision into a transactable product and validated master plan.

Neil Urban
Founder & Manager
Architect and Urban Planner focused on high-density, ecological urban systems. Visionary lead and creator of the Z-Axis methodology.

USE OF FUNDS (18-24 MONTH Runway)

Category	Allocation	% of Raise
Legal & Regulatory	\$ 1,200,000	30%
Engineering & Infrastructure	\$ 1,000,000	25%
Urban Planning	\$ 900,000	23%
Technology & Visualization	\$ 500,000	13%
Overhead & Operations	\$ 400,000	10%
TOTAL	\$ 4,000,000	100%
