Mowing the
open space was
the first priority!

A large, leafy tree in the foreground of a grassy hillside with a winding path and houses in the background.

In August, we began our tree work in the open space. This is an after photo from the trail entrance at 5941 Central Avenue.

Sprinter Lane

Brow ditch cover replaced by County in record time

A photograph of a dirt trail that has been severely eroded. A deep, jagged gully runs down the center of the path, filled with loose soil and rocks. The surrounding ground is dry and cracked, with sparse green grass growing in patches. The text is overlaid in white, sans-serif font in the upper-middle section of the image.

After heavy rains in 2020,
trails needed repairs.

5 trails were repaired, and wattles placed to keep erosion in check
