Rapido is pleased to announce the Magor 54' DODX Flatcar in HO Scale!

At the height of the Korean War, the US army required a new fleet of rolling stock to transport military hardware across the nation on any railroad. Notably, a large order for 650 cars was placed with the Magor Car Corporation to handle the heavier and larger tanks and other military equipment of the era. Delivered between April and July 1953, the Magor fleet came in at 54' and weighed in at around 36 tons with a 100-ton load carrying capacity. Features included a wood deck and heavy steel frame construction along with 6-wheel buckeye trucks.

For a detailed history of these cars, check out the [DODX Flatcar](#) page on our website.

The Rapido 54' Magor DODX Flatcar features:
