

-Horsemanship- with Visual Aids

Tom Wicklund of Performance Horse Arena is holding a clinic in **September** at the Diamond J Equestrian Center in Fountain, Colorado!

Learn practical groundwork exercises that directly translate to better communication and success in the saddle. The clinic includes horsemanship instruction with visual demonstrations, hands-on groundwork maneuvers, and a short trail ride to apply what you've learned in a real-world setting.

Tom works one-on-one with each participant, helping horse and rider progress at their own pace and address their individual goals.

These clinics are ideal for building rider confidence, providing valuable exposure for young horses, helping you develop a partnership with a new horse, and expanding your horsemanship toolbox with effective techniques you can take home and continue using.
