Hope for a New Life

GUOYU GLOBAL, INC

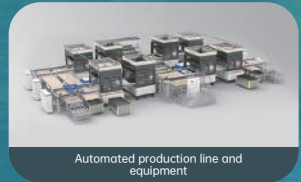

Environmental protection technology all-round one-stop service

Environmentally friendly paper and plastic products

Moxian Manufacturing and Development

Automated production line and equipment

Pulp supply system design planning

Innovative process production technology

R&D team global service

DELIVER GREEN TO THE WORLD

About Us

In response to customer needs, from paper and plastic packaging design, pulp raw materials, mold manufacturing,

We provide all-round one-stop integrated services from development of production equipment and process to mass production of products.

Our customers are all over Asia, Southeast Asia, Europe, America and Australia.

The R&D team has rich experience and is constantly challenging and innovating on the basis of traditional technology, so that our customers can also benefit from it.

The world's first paper cup that can be tightly buckled

Unique hoop edge inverted buckle design patented environmental protection paper cup lid

Exclusive patent

- Finished products of molded products
- Method for manufacturing plant fiber molded cup lid barb groove

Naturally degradable
made from plant fiber

Closely integrated
without overflow

High temperature resistant
and microwaveable

Quality passed SGS certification test

Comply with the test items developed by the US FDA/EU Food Safety Agency EFSA

ISO9001 international quality management system certification

Since 1999, we have created more than 30,000-50,000 tons of paper-plastic products with customers every year to replace plastic products, successfully reducing pollution to the earth.

Produced through environmental friendly recycling of agricultural waste such as orange stalks.

Environmental protection paper and plastic product packaging

Whether it is food, civilian or industrial paper-plastic products, our solid technology and craftsmanship make pollution-free high-tech green products, confident to meet your high standards for paper-plastic products

Industrial/Commercial Packaging

Tablet PC Packaging Box

Bluetooth speaker packaging box

Buffer packaging material for game consoles

Wireless router internal support

Bluetooth headset packaging box

Earphone packaging box

Pistol drill tool box

Watercolor box inner support

Tool box

Cosmetic packaging box

Cosmetic packaging box

Perfume Neto

Food packaging

80mm, 90mm direct drinking cup lid

90mm flip-top lid

8oz~16oz cup

Five bottles of beer set

Bottle holder

Chocolate outer box

800ml lunch box

Two grid lunch box

Five grid lunch box

7 inch - 10 inch round dinner plate

Three grid plate

Burger Box

300ml paper plastic bowl

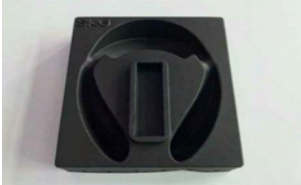

Double-layer lunch box

Nine inch salad box

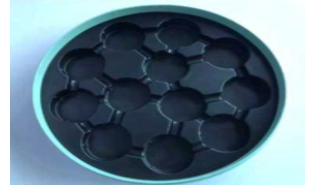

Other types of blister PS+PET

High-quality industrial packaging 1

Through independent research and development of high-efficiency boutique industrial charter machines, high-precision, high-quality packaging products can be produced

FBO2-A Fully Automatic Double Station Turning Forming Machine

High output, high quality, suitable for the production of exquisite tableware, Paper plastic cup lid, food container

FAO2 Fully Automatic Flip Forming Machine

0 draft angle, high quality, suitable for the production of wet-pressed quality work packages, Life packaging

Equipment size	L9,000 x W3,200 x H5,600 mm	L7,500 x W3,400 x H6,100 mm
Table size	L1,260 x W1,060 mm	L1,260 x W960 mm
Hot press clamping force	40 Ton	40 Ton
Product height	<100mm	<130mm
Product thickness	0.5mm ~1.2mm	0.5mm ~1.2mm
Daily production capacity	0.7~ 1 Ton	0.6~ 0.9 Ton

High-quality industrial packaging 2

Through independent research and development of high-efficiency boutique industrial charter machines, high-precision, high-quality packaging products can be produced

Blister die cutting machine

Automatic high speed vacuum blister molding machine

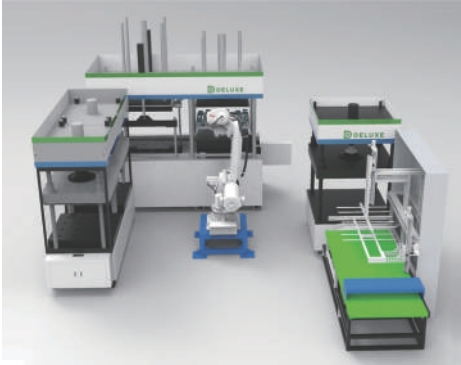

Three station automatic positive and negative pressure integrated molding machine

Automatic screen printing line

Food packaging

In-depth understanding of different food packaging has developed each model used to meet the needs of high-end and popular food packaging

Wrco3 Automatic Tableware Production Line

Full line automation, high floor efficiency, high output

Production line composition:

1 forming machine + 2 hot presses + 1 trimming machine + 1 robotic arm + 1 automatic reclaiming system + safety protection system

BMT02 automatic tableware production line

Full line automation, high floor efficiency, high output

Production line composition:

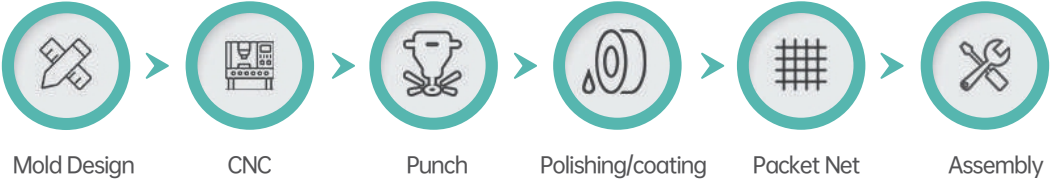

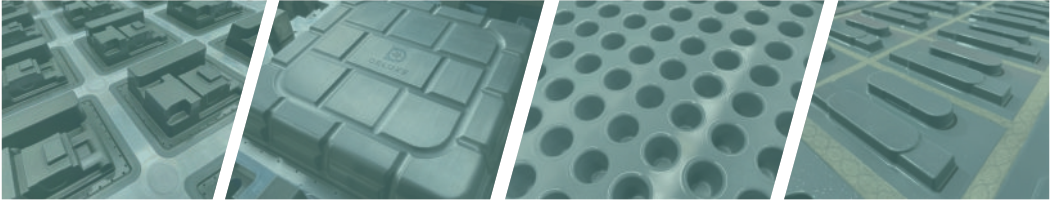

1 rotary hub forming machine + 4 hot presses + 2 trimming machines + automatic pick and place system + automatic stacking system + safety protection system

Area	8.5m x 9m	16m x 18m
Table size	L1200 x W1200 mm	L1,450 x W1,385 mm
Product height	<100mm	<70mm
Product thickness	0.5mm~1.2mm	0.5mm~1.2mm
Daily production capacity	1.2 ~ 1.5 Ton	3.7 ~ 4.2 Ton

Automated Production Line And Equipment

Mold manufacturing and development

Pulp supply system design planning

Large-scale paper-plastic pulping system-wet pressing demonstration line

Medium-sized paper-plastic pulping system-dry pressing demonstration line

Small paper-plastic pulping system-dry and wet pressing demonstration line

Aoi Intelligent Automated Inspection

Low Cost

Automated full inspection, reducing labor costs

High Efficiency

Fast detection up to 3.6pcs per second

Intelligent

Intelligent and accurate identification of various products
The defect misjudgment rate is less than 1%

Design and Manufacturing Base of the Deluxe

The only sales and service center in the US
