

## 5<sup>th</sup> Pediatric IBD Imaging Course: A Multimodality Approach

### **Do you want to learn more about IBD Liver Disease and IBD Imaging?**

The Ped IBD COE and Imaging course this year is going to be a Virtual Event!!! And it is coming up **VERY** soon!!!

**Saturday, April 10<sup>th</sup> 2021**

**10am to 12 noon and 1pm to 3pm (EST)**

#### **What to expect:**

For those who have attended the SickKids IBD COE and Ped IBD Imaging Course before, it is keeping to a very similar format

- 1) Case Based interactive clinical discussions during the morning
- 2) 'Eyes on, Hands off' imaging sessions in the afternoon

In the morning it starts with an IBD Liver disease case lead by Amanda Ricciuto , and will then move into a 'clin-path' conference covering luminal and liver complications related to IBD. As always, lots of 'clicker' activity!!!

After a lunch break there will be an interactive session on Bowel Ultrasound, and will then move into a session exploring the finer points of MRE, MRP and MRCP

#### **Who is it for:**

As in past years, this course is designed specifically to be relevant to both GI docs and DI docs and will give you the unique opportunity to interact closely with your DI colleagues. All members of the Multidisciplinary team are also warmly invited and more than welcome to attend.

#### **How to register:**

The event is supported by CIDSCaNN Educate, and your registration will be sponsored by the Network.

Please use the link below to register ASAP (please select the enrolment category "Ped IBD COE Program Attendees")

## **Invite your colleagues!!**

Please extend the invitation (and registration link) to any of your interested trainees and allied health team members (they should use the 'COE' Registration Type).

We have been reaching out to associated Diagnostic Imaging Departments, but we do encourage you to also approach your local radiologists and let them know about the event. This is the 5th time we have held this combined imaging course, and feedback from Radiology staff in the past has been excellent with many 'repeat attenders'. (Please ask them to use the 'General' Registration Type).

This is an accredited event and Physicians can get CPD points

## **Registration Link:**

<https://www.cvent.com/d/gjqmn8>

Hope to see you there!

Please register early, and maybe also drop us a quick email to let you know you are interested!!

Best wishes,

CIDSCaNN Educate Working Group

*Sally, Thom, Colette, Daniela, Lara, Zubin, Michelle*

## **Programme, Saturday 10<sup>th</sup> April 2021 (all times are EDT)**

### **Session 1B: GI-Focused Session**

10:00 – 10:45      Liver Disease in IBD  
- Amanda Ricciuto & Thomas Walters

### **Session 2: Combined Session: Multimodality Imaging in Clinical Practice**

10:45 – 11:10      Clinical Dilemma 1: Abscesses  
11:10 – 11:35      Clinical Dilemma 2: Strictures  
11:35 – 12:00      Clinical Dilemma 3: Liver Disease  
- Thomas Walters & All Faculty

### **Lunch Break**

### **Session 3: Live and virtual: Hands Off, Eyes & Ears on!**

13:00 – 13:30      Bowel Ultrasound  
*Tips, Tricks and Standardized Reporting*
