LIGHTING SOLUTIONS

Easy Open

The housing cover can be open very easily to replace driver and retrofit or fix in smart control devices.

Better Corrosion Proof

High strength die-casting aluminum and anit-aging electrostatic spray processing are used for housing , our garden light can be used for salty and humidity environment.

Anti-UV Lens

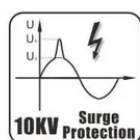

The lens used is resistant to UV and visible radiations. In comparison with normal PC lens, it can be used outdoor directly to sunshine.

Removable Retrofit

The retrofit inside the garden light is designed to be able to replace or fix in new smart control devices easily.

10KV Surge protection driver is used for our garden light, for the purpose of protecting against electrical surges and spikes, including those caused by lightning.

Surge Protection

With IK08 protected tempered glass, our garden light has better performance for outdoor usage.

Tempered Glass
