Re: Walnut Creek Access Web Camera

Dear Jerry,

The E.P.S.F.A. supports using the Lake Erie Permit monies collected annually to both install and maintain a web based live feed camera system at the mentioned location.

The one utilized at the Trout Run Nursey is utilized and provides many benefits. We can see those same benefits and more coming from one installed at the Walnut Creek Access as well.

Best Regards,

Pete Alex,
President, EPSFA
