

Most people walk the earth asleep. To be in full control of your future, you must control the present. To live in the present you must be awake.

Every day, all the time, ask yourself this:

“Who am I?

Where am I?

What am I doing?

What should I be doing?”

“To change your course of reality and write a new future, you have to be aware of your actions and intentions at all time. Set reminders, alert yourself and wake yourself up with these questions at least 10 times per day until it becomes a habit and you walk the earth awake. You will see how zombified the people around you are. Do not let the universe dictate your fate. Tell the universe and yourself who you are becoming and take actions that will get you there. WAKE UP NEO!
