

AVTRONIX MARKETING LLP is a leading professional distribution company, provider of products and solutions to industrial and commercial users of electronic, electrical and electro mechanical components and systems.

AVTRONIX being managed by a group of professionals having both business and technical expertise with a very structured operation in supply chain management.

Our core competence is managing the supply chain process including the supply of complete kits for just in time manufacturing, immediate shortages and sourcing of hard to find obsolete components.

We are committed to meet 5R's of Supply chain - Right product, Right quality, Right price, Right time and Right place

We can support products for your R&D and Proto build requirements with no MPQ/MOV

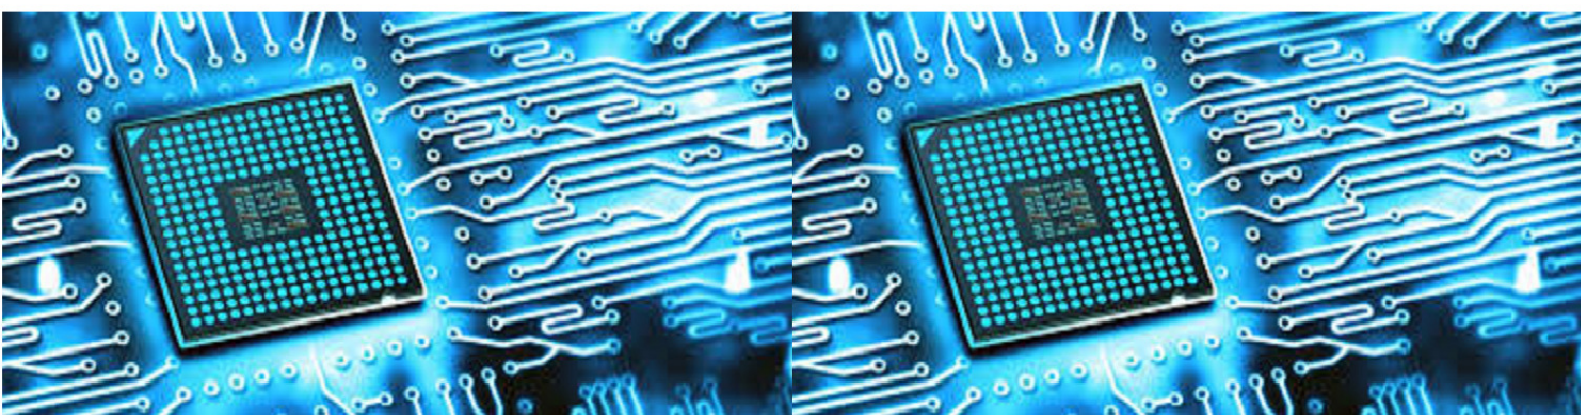

We supply all the products with back to back traceability documents.
