- Lowest Overall Cost To procure quality goods and services at the lowest overall cost.

 long-term costs, which give consideration to overall value, are the relevant costs on which
 procurement decisions will be based.

 previous acceptance of funds to support programs will not grant preferential treatment to
 suppliers who provided them.
- **Proprietary Information** To ensure that all information relating to goods and services requirements is considered proprietary and will be disclosed to suppliers only as appropriate in the circumstances.
- **Dealing with Suppliers** To treat suppliers with courtesy, fairness, respect, honesty and professionalism; and to ensure that no supplier has an unfair advantage over its competitors and to respect and not disclose Suppliers' confidential information

Approval to Purchase:

The Board of Directors authorizes the annual expenses of the agency by approving the annual budget. For any purchases not incorporated into the fiscal budget, the Board of Directors delegates a limited authorization responsibility to the CEO. However, the Board of Directors shall be informed of major purchases that have the potential to affect the direction or financial results of the agency. The Board requires the CEO to obtain Board authorization for purchase commitments (individual purchase orders or supplier contracts) longer than 2 years and greater than \$50,000.

Staff requesting the purchase of goods, equipment or services within the approved budget shall complete a Purchase Requisition except for payments to temporary agencies, course registrations, business expense reimbursements and other items not normally invoiced which will be reimbursed through a cheque requisition.
